Deborah A. Huth, CGFM First Deputy Karen J. Ferraro Second Deputy

June 30, 2011

To the Citizens of Butler County,

I am honored to present Butler County's *Comprehensive Annual Financial Report* for the year ending December 31, 2010.

The primary purpose of the *Comprehensive Annual Financial Report* (CAFR) is to provide a timely, accurate, and understandable accounting of the financial resources entrusted to those representing you in County government.

The report is prepared under standards prescribed by the Government Finance Officers Association (GFOA). Butler County submits its CAFR to a comprehensive review by GFOA representatives each year who determine if the report continues to qualify for the organization's prestigious *Certificate of Achievement for Excellence in Financial Reporting*. Although the County is required to re-apply each year for the GFOA Certificate, I am pleased to note Butler County has received the award for nine consecutive years.

Butler County was established in 1800

Photo provided by: Butler County Information Services

In addition to the GFOA, the Commonwealth of Pennsylvania and the federal government review this report. The report also provides useful information to general obligation bondholders, bond rating agencies, and financial institutions.

The Office of the County Controller prepares the report with assistance from other County officials. The Board of County Commissioners (Commissioners) supplied the commentary and analysis appearing in the section of the report entitled, *Management's Discussion and Analysis*. Departmental directors, elected row officers, and court officials also made significant contributions to the successful completion of the report. Responsibility for the accuracy, reliability, and completeness of the presentation, including all disclosures, rests with the County.

We believe the financial information, as presented, is accurate in all material respects. This report is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds, as reported by management. All disclosures believed necessary to enable the reader to gain a clear understanding of the County's financial affairs have been included within the report.

Maher Duessel, Certified Public Accountants, has independently audited the County's financial statements. The purpose of that independent audit is to provide reasonable assurance the financial statements appearing herein are free of any material misstatements. Maher Duessel is a peer-reviewed independent auditing firm. All CPA's employed by the firm are licensed by the Commonwealth of Pennsylvania.

The audit was conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* as issued by the Comptroller General of the United States. The audit also conforms to the American Institute of Certified Public Accountants' Statement on Auditing Standard No. 99. This standard requires that audit procedures provide a reasonable likelihood of detecting a misstatement in the financial statements due to fraud.

The independent auditor, in accordance with the prescribed standards noted above, provided an unqualified opinion of the County's basic financial statements for the year ended December 31, 2010.

The independent auditor also conducted an audit of certain County programs funded in whole or in part with federal monies and subject to the auditing standards established by the "Single Audit Act of 1984." Those standards require the independent auditor to report on the fair presentation of the financial statements and, additionally, to report on the County's internal controls and compliance with the legal requirements set for recipients of federal funds. Those reports are not included herein but are available as a separate Single Audit Report issued by the auditor.

The CAFR, including its financial statements and statistical tables, was prepared in accordance with the standards established by the Government

Accounting Standards Board (GASB), the GFOA, the American Institute of Certified Public Accountants (AICPA), and applicable fiscal provisions of the County Code of the Commonwealth of Pennsylvania.

Marcellus Shale - The Big Story of 2010

The search for natural gas intensified around the county as evidenced by this Rex Energy deep-well drilling rig located on a Forward Township farm.

Photo provided by: Office of the Butler County Controller

FORMAT OF THE REPORT

The 2010 CAFR is presented in the following three sections and respective subsections:

- I. Introductory Section (1) a listing of elected officials, (2) this transmittal letter, (3) a copy of the GFOA Certificate of Achievement for Excellence in Financial Reporting for the County's 2009 CAFR, and (4) the County's organizational chart, relevant maps, illustrations, photographs, and website links.
- II. Financial Section (1) the Independent Auditor's Report, (2) Management's Discussion and Analysis (MD&A), (3) the basic financial statements, which include government-wide financial statements, fund financial statements, and notes to financial statements, and (4) required

supplementary information, individual and combining financial statements, schedules with comparative budgetary information, and prior year information, as applicable, arranged by fund type.

The MD&A is intended to provide an analysis of 2010 financial performance as well as provide the reader with forward-looking financial commentary. The MD&A is comprised of an introductory narrative, an overview, and an analysis component. The Commissioners, through their designee the Director of Administration/Chief Clerk, is responsible for the preparation and content of the MD&A.

III. Statistical Section - This section provides the reader with historical financial data and some selected demographic and comparative statistical information.

This report is comprehensive in scope. It is designed to provide the citizenry with an accurate accounting of the County's financial activities during the year as well as provide readers with relevant and practical information about the County. The report is also intended for use by investors, creditors, bond underwriters, bond rating agencies, and other governmental officials.

This report includes all funds, programs, and services provided by the County. Programs and services would include the court system, the prison, Sunnyview Nursing Home, the 9-1-1 Emergency Operations Center, and all human service programs.

GASB has established criteria for determining if an organization is considered part of the County's reporting entity and, as such, is to be included in the CAFR as a component unit of the County. Under GASB Statement No. 14, the following criteria are used to determine if an organization should be included as a component unit within the County's reporting entity: (1) the County's ability to impose its will on the organization and (2) the organization's ability to impose a financial benefit or burden on the County.

Based upon that evaluation, the Butler County Airport Authority and the Butler County Community College are included as component units within the County's reporting entity.

The Commissioners make a number of appointments to other authorities and advisory boards. The County's relationship does not extend beyond this appointment process, and therefore these organizations are excluded from the reporting entity. A more detailed discussion on this subject can be found in Note 1 to the basic financial statements.

HISTORY AND PROFILE OF COUNTY GOVERNMENT

The County is located in southwestern Pennsylvania. The County seat is situated in the City of Butler, which is approximately 35 miles north of the City of Pittsburgh. The County is bounded on the south by Allegheny County. To the west are Beaver, Lawrence, and Mercer Counties. To the north is Venango County.

The County's eastern border is shared with Clarion and Armstrong Counties. The County was formed in 1800 from Allegheny County and took its name from the Revolutionary War hero General Richard Butler, who served on George Washington's general staff.

The County has a land area of approximately 800 square miles and a population exceeding some 185,000 residents. There are 57 political subdivisions within the County, comprised of 23 boroughs, 33 townships, and 1 city (the City of Butler).

The origin of county government in the United States goes back at least a thousand years to the English "shire." The shire had a dual-function. It served as the local government for the peasants and serfs of the time. The shire also functioned as the administrative arm of the king or central government. This governing arrangement was brought by colonists to the New World and established along the eastern coast of North America. To this very day, the archaic term "shire" remains with us in its derivative form, "sheriff."

Pennsylvania is divided into 67 enumerated counties. For the purposes of legislation and regulation, a county is further categorized into one of nine classes, as determined by the county's most recent census population.

An Eighth Class county has 20,000 or fewer residents. Second Class A counties have populations between 500,000 and 800,000 residents. Philadelphia is the only county having a population greater than the 1.5 million residents required for First Class status.

The County became a Fourth Class county following the 1990 census, when its population was certified as exceeding 150,000 residents. The 2010 census determined the County's population was 183,862 citizens-short of the threshold of 210,000 required for movement to Third Class county status.

The County's governing body is comprised of a three-member Board of Commissioners. Commissioners are elected at large to a term of four years. Under Pennsylvania's County Code, the Commissioners function as both an executive and legislative body. The Commissioners meet in public session generally on the first and third Wednesday of each month.

Sheriff Mike Slupe, elected 2008

Photo: County Website

The County's elected officials are commonly referred to as row officers and act primarily in a ministerial capacity. Those row officers are as follows: Clerk of Courts, Controller, Coroner, District Attorney, two Jury Commissioners, Prothonotary, Recorder of Deeds, Register of Wills/Clerk of Orphans' Court, Sheriff, and Treasurer.

The Butler County Court of Common Pleas is made up of six elected judges with the most tenured judge holding the position of President Judge. Judges are elected to a ten-year term of office. There was one appointed senior judge serving the court during 2010.

The County Magisterial District Court is made up of seven Magisterial Judges (formerly known as District Justices). Magisterial Judges are elected by geographical district and serve six-year terms.

There are four principal boards having authority over County administrative and fiscal matters. As described, the Commissioners function as the primary governing body of the County. The three remaining Boards are the Salary Board, the Prison Board, and the Retirement Board.

The County Salary Board is made up of four permanent members: the three Commissioners and the County Controller. The Salary Board creates and sets the salary for all non-elected County positions (elected official salaries are set by state statute). The chair of the Commissioners serves as chair of the Salary Board. When an action of the Salary Board affects a position falling under another elected office, that official is entitled to a vote and becomes a fifth member of the Salary Board. Salary Board meetings are scheduled, as needed, prior to the regular Wednesday Commissioners' meeting.

The County Prison Board is responsible for operational oversight of the County Prison and its employees. The Prison Board is made up of the three

Commissioners, the County Controller, the District Attorney, the Sheriff, and the President Judge or his representative. The Prison Board meets in regular public session the second Tuesday of each month.

The County Retirement Board oversees the County Employee Retirement Fund. The Retirement Board is made up of the three Commissioners, the County Controller, and the County Treasurer. The County Controller serves as secretary of the Retirement Board and is responsible for administration of the pension fund under Pennsylvania Act 96.

The Pension Fund has over 800 County employee participants and over 400 retirees receiving monthly pension annuities. Pension Fund net assets totaled approximately \$120,000,000 at year-end.

Meeting of the Butler County Retirement Board

Photo provided by: Office of the Butler County Controller

ECONOMIC CONDITION AND OUTLOOK

The County has continued to gain population during the last decade. The County's population has grown by five percent since 2000. The median age of a County resident is 40.4 years according to the U.S. Census Bureau. The median ages of the residents of nearby counties are: Allegheny County (40.8), Armstrong County (43.8), Beaver County (43.5), and Lawrence County (42.6).

Agriculture Continues to be an Important Component of the County's Economy

Family farm north of Slippery Rock Borough

Photo provided by: Office of the County Controller

The southern third of the County has been experiencing considerable growth since the completion of routes 28 North and 279 North in the mid-1980's. The most notable growth has been in the areas surrounding Cranberry, Adams, and Buffalo Townships. The growth of the County's tax base has paralleled the boom in residential and commercial property construction in these and other areas of the County.

The assessed value of County taxable property grew from \$1.0 billion in 2001 (75% of 1969 Assessed Value) to \$1.6 billion in 2010 (100% of 1969 Assessed Value), according to County assessment records. During the same period, the market value of real property increased from an estimated \$8.4 billion to \$11.9 billion. The last County reassessment was completed in 1969.

The amount of real estate tax on a parcel of property is determined by applying the County's millage rate to the property's assessed value. Changes to the millage rate occur in December when the County's annual budget is acted on by the Commissioners. The County's millage rate had remained unchanged for five years prior to 2001. In 2001, the rate increased to 21.5 mills and subsequently increased to 24.5 mills in 2002. The millage rate remained at 24.5 mills through 2004. In 2005, the County's millage rate increased to 27.5 mills and in 2008 increased to 30 mills. These rates were at 75% of the 1969 Assessed Value. In 2009, the County changed to 100% of the 1969 Assessed Value and the millage rate was set at 23.628 mills.

School District data are as of June 30, 2010. S's are in millions							
Local Political Unit	General Obligation Debt	Unfunded Pension Obligations	Unfunded Healthcare Obligations	Total Obligations	Total Revenue	Obligation as % of Ttl Revenue

County:	57.4	40.0	0.8	98.2	119.3	829	

Notes: Information obtained from school district's annual financial reports, the Public School Employees Retirment System annual financial report, and the county's annual financial report.
Unfunded healthcare obligations include a liability for compensated absences

County school district taxes are expected to rise measurably over the next several years due, in part, to substantial unfunded pension and retiree health care obligations (see table above). The impact on residential and commercial property values is unknown.

According to the Pennsylvania Department of Labor and Industry, the County's average unemployment rate was 7.7 percent in 2010. Consumer prices increased by 1.5 percent for County residents in 2010, according to the U.S. Department of Labor, Bureau of Labor Statistics.

In April of 2007, Westinghouse Electric Company announced it would relocate its corporate headquarters to Cranberry Township, Butler County. Westinghouse is the world leader in nuclear power plant technology and has benefited recently from several major nuclear plant construction contracts. The most notable of these was a multibillion-dollar contract to construct four electrical generating facilities in the Peoples Republic of China.

Westinghouse Headquarters Route 228, Cranberry Township

In the distance, steam rises from the cooling towers of the world's first nuclear plant in Shippingport (photos below and at right).

Photos provided by: Office of the County Controller

Construction of that facility began during 2007 in the MSA Park section of Cranberry Township. Westinghouse is now the largest private employer in Butler County per the Pennsylvania Department of Labor and Industry.

Westinghouse is expected to provide a positive impact on County employment, income, residential construction, and real estate values as well as a heightened demand for educational, cultural, and recreational activities.

AK Steel, formerly known as ARMCO Specialty Steel Products, is the County's second largest private employer. The Butler Works of AK Steel is a recognized leader in the manufacture of electrical grade silicon steel and

stainless steel products. The Butler Works of AK Steel produces the only high-permeability electrical steel manufactured in the United States.

Butler Melt Shop Electric Arc Furnace

Source: AK Steel Website

The Butler Works of AK Steel employs 1,500 locally and is the major supplier of steel used in the manufacture of domestic automobile exhaust and catalytic converter systems. AK Steel remains competitive in the world market and continues to invest capital in its County operation.

The County is the home of several high technology firms manufacturing a variety of world-class products. Among those companies is II-VI, Incorporated of Saxonburg, established in 1971.

II-VI's office and manufacturing facility are located on a site long associated with technological innovation. Some ninety years ago the world's first commercial radio transmission tower was erected on the site now occupied by II-VI.

In 1920, the tower transmitted the world's first commercial radio broadcast by pioneer Pittsburgh radio station KDKA. A nuclear cyclotron was later constructed on the site and used in atomic research by physicists of Carnegie University of Technology (now Carnegie Mellon University).

II-VI is an established industry leader in the manufacture of optical and electro-optical components and has a number of manufacturing plants and distribution centers around the world. II-VI's infrared products are sold worldwide for use in high power industrial CO_2 (carbon dioxide) lasers. The firm has several products produced under contract with the Department of Defense and Department of Homeland Security.

Mine Safety Appliances (MSA) is located in Cranberry Township. MSA is the largest manufacturer of safety equipment and safety systems for industrial workers. MSA's products include respirators, gas masks, fire helmets and shields, self-contained breathing apparatus and hearing and eye protection devices.

MSA is a major defense contractor. Several of its products are also in demand for Homeland Security applications. MSA's Callery manufacturing plant was sold in 2003 but it remains in service as the world's leading supplier of borane reagents and alkali metal strong bases. Since 1946, this plant has produced specialty chemicals used in pharmaceutical and industrial applications.

Near Saxonburg is Penn United Technology, a manufacturer of precision sub-micron tool and die equipment. Penn United Technology employs over 620 skilled machinists, technicians, and support staff.

Situated in Petrolia, in northeastern Butler County, is INDSPEC Chemical Corporation. INDSPEC is the largest producer of resorcinol in the world and the only producer of commercial grade resorcinol in the United States. Resorcinol is used in the manufacture of fabric dyes, adhesives, and has some pharmaceutical applications.

Arial view of INDESPEC
Chemical Corporation, Petrolia

Source: website

In nearby Karns City is Penreco, which traces its history back to the 19th century oil boom in the County. Penreco produces a number of well known petroleum-based products, including petrolatum and mineral oil.

Source: Ibis Tek Website

IBIS Tek in Middlesex Township provides high technology security to the U.S. Military and private employers.

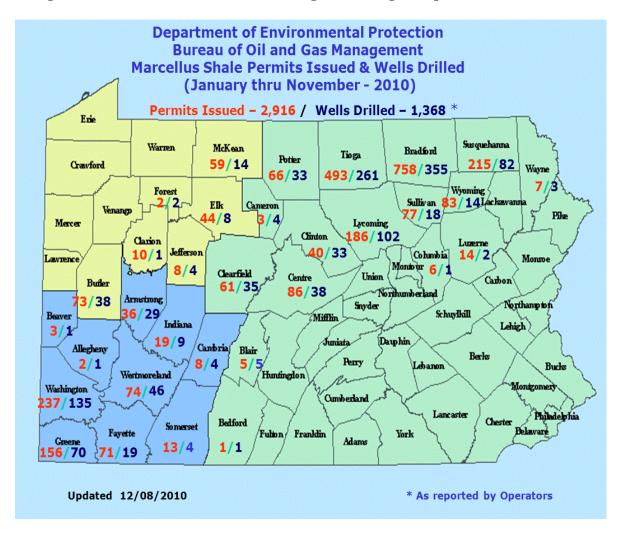

Butler Health System, which includes Butler Memorial Hospital, employs approximately 1,700 health care staff. The hospital is undergoing a major capital construction project at its primary location in the City of Butler. Other major employers include the Butler Area School District, Seneca Valley School District and the State System of Higher Education.

The influx of residents coming from neighboring Allegheny County and other areas continues and the adjacent communities of Middlesex, Clinton, and Winfield Townships are expecting accelerated growth as they add infrastructure in support of population growth. Westinghouse's decision to locate in Cranberry Township should increase demand for those County residential properties within commuting distance of the Westinghouse facility.

Over the past two years, many County property owners have begun benefiting from an enormous natural gas reservoir running through parts of Pennsylvania. The Marcellus Shale field runs from New York State through the Appalachian basin, including central and western portions of Pennsylvania. Several major natural gas exploration firms have begun acquiring gas-drilling rights from northern Butler County property owners.

Industry experts believe the Marcellus Shale field may contain one of the largest natural gas reserves ever discovered in this country. While much of this optimism still remains speculative in nature, any major natural gas discovery in the area would certainly have a positive economic impact on the County residents.

A mini boom in natural gas drilling activities helped contribute to the county's long-awaited recovery from the 2008 economic downturn. During 2010 the office of the Recorder of Deeds was frequently filled with individuals searching land deeds on behalf of natural gas drilling companies.

Transportation

The County has benefited from an extensive transportation system for over 200 years. Indian trails that traversed the County brought traders and explorers on their way to Erie from Pittsburgh. Today, Interstate 79 follows a similar route as it courses through the western portion of the County. Interstate 80 touches the northern border of the County on its east/west journey connecting New York with San Francisco.

Both interstates have interchanges that provide travelers direct access to the County's other major highways. The Pennsylvania Turnpike (Interstate 76) runs along the County's southern border. The Allegheny Valley Expressway (Pennsylvania Route 28) crosses the southeastern corner of the County.

The "Cranberry Connector" created a new interchange in southern Butler County and provides direct access to the Pennsylvania Turnpike from Interstate 79. The \$66 million project reduced some of the traffic congestion at the intersection of Route 19 and Route 228 in Cranberry Township. Over 50,000 vehicles travel Route 228 and Route 19 corridor each day.

Railroads serving the County include the Buffalo and Pittsburgh, the Bessemer and Lake Erie, Norfolk Southern, and the CSX Railroad.

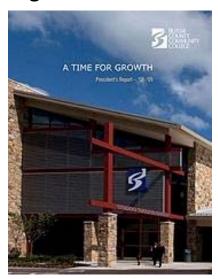

Harmony Bridge spans the Connoquenessing Creek and is one of 134 bridges maintained by the County.

Photo: Office of the County Controller

The Pittsburgh International Airport provides commercial air service. The airport is less than a one-hour drive for most County residents. Local airports include the Butler County Airport, Zelienople Municipal Airport, Butler Farm Show (Roe) Airport, and Lakehill Airport.

Numerous motor freight carriers doing business in the County provide commercial trucking service. The County has access to the nation's largest inland waterway through the Allegheny River port in Freeport, Armstrong County. Freeport sits at the southeastern point of the County.

Higher Education

Butler County Community College Source: BC3 Website Slippery Rock University, with an enrollment of over 8,800 students, is located in Slippery Rock Borough in the northwestern section of the County.

The Butler County Community College opened in 1966. Combined fall enrollment for the Butler, Lawrence and Mercer County campuses totaled 4,442 students—a 15% increase over 2008-2009 enrollment totals.

Several major universities and colleges are within the region surrounding the County. These include Carnegie Mellon University, University of Pittsburgh, and Duquesne University.

Other colleges and universities include Chatham College, Geneva College, Grove City College, Point

Park University, Robert Morris University, La Roche College, Carlow University, Clarion University, Indiana University of Pennsylvania, and several satellite campuses of Penn State University.

Health Care

The Butler Memorial Hospital, a 350-bed acute-care general hospital, serves the County. UPMC, in Cranberry Township, serves residents in the southwestern section of the County. The 424-bed Butler Veterans Administration Hospital is located just outside the City of Butler. The County operates Sunnyview Nursing and Rehabilitation Center, a 220-bed skilled nursing care facility, located in Butler Township. Other long-term health care facilities include St. John Specialty Care Center in Mars and Concordia Lutheran Ministries in Cabot.

Recreation

The County's premier recreational site is Moraine State Park, a 15,000-acre state park surrounding Lake Arthur. Moraine State Park occupies portions of Muddy Creek, Worth, Brady, and Franklin Townships.

Lake Arthur, which is over 3,200 acres in size, was created in 1970 using the basin formed by an ancient glacial lake. Moraine State Park attracts visitors from all distances, including the greater Pittsburgh, New Castle, and Youngstown, Ohio areas. Moraine State Park offers hiking, sailing, swimming, and biking activities as well as a variety of sport fishing opportunities for local anglers.

Adjacent to Moraine State Park is the home of Jennings Environmental Center, site of the only relic prairie in the eastern United States. Located in neighboring Lawrence County, just west of Moraine State Park, is McConnell's Mill State Park. McConnell's Mill State Park is most noted for its gristmill, covered bridge, and deep gorges carved thousands of years ago by a cascading Slippery Rock Creek.

The County maintains Alameda Park, which is located in Butler Township and provides over 400 acres of scenic woodlands, a number of picnic shelters, and an Olympic-size public pool. Many of the larger communities in the County have sports and swimming facilities. Cranberry Township has a new community pool and a recently opened municipal golf course. Numerous other parks, fishing streams, and state game lands are located throughout the County.

Historic

The County's historical tapestry is rich and colorful. The County is

recognized as the "home of the Jeep." During the early 1940's, the Bantam Car Company of Butler beat out several larger competitors to win the Army's contract for the development of a light transport vehicle. The design and initial manufacturing of this vehicle, commonly known as a Jeep, was at the Bantam Car plant in the County.

Butler County Heritage Center
Source: Website

General Eisenhower considered the Jeep as one of the major factors contributing to the Allies victory in World War II. Today, several vintage Bantam Jeeps, identical to the models so admired by General Eisenhower, are on display at the Butler County Heritage Center, located in the City of Butler.

The County's historical preservation efforts have restored many original homes and businesses dating to the early 19th century. One well-known example is the Harmonist Society preservation. Harmonists settled in what is now the County's southwestern community of Harmony, which has been designated a National Historical District.

Other notable preservations from the 19th century include the Shaw House in the County and Coopers Cabin in Cabot. Also, in Cabot is the burial site of William "Uncle Billie" Smith, whose blacksmith skills assisted Edwin Drake in the drilling of the world's first oil well in Titusville, Pennsylvania. Near Cabot is a museum honoring one of Saxonburg's earliest settlers - John Roebling. Roebling was the inventor of steel cable and the designer of the Brooklyn Bridge.

Over 100 shriners participate in the annual Propect Community Parade held Memorial Day weekend each year. Prospect resident and organizer Dave Lotz is shown in photo.

Photo provided by: Office of the County Controller.

In 2003, the County completed the project of affixing historical markers along the path taken by George Washington through the County in 1753. The Commonwealth of Pennsylvania funded the project through a grant to the County.

The County has a rich 210-year history that has fostered a number of historical societies, including ones in Butler, Zelienople, Saxonburg, Harmony, and Evans City. The Borough of Prospect, near Moraine State Park, has a devoted group preserving that community's interesting past. Prospect was the

home of Rube Waddell – the County's only member of the Baseball Hall of Fame.

House, South Main
Street, Zelienople

Photo provided by: Office of the County Controller

The markers display the likely course followed by the future president as he carried out a diplomatic mission to the French garrison of Fort LeBoeuf, near present-day Erie. George Washington was under orders from Virginia Governor Dinwiddie to instruct the French to remove themselves from British territory in Western Pennsylvania.

During Washington's trek through the County, the future president narrowly escaped death when an Indian assailant fired upon him at close range with a musket. The assault occurred near Evans City, Butler County and was one of several events in Western Pennsylvania leading up to the outbreak of the French and Indian War the following year.

Many years ago, a large stone marker was placed near the Forward Township Municipal Building on Route 68 identifying the approximate site of the assault. County officials, historical society members, and the Butler County Tourism and Convention Bureau continue to raise public awareness of this area's historical connection to the French and Indian War.

Veteran Affairs

The County's large population of military veterans is served by the County's Office of Veterans Services and several active VFW and American Legion Posts around the County. The County servicemen and women have answered the call to duty in the war on terrorism, serving in Iraq, Afghanistan, and other locales around the world. County citizens are always quick to turn

out for a parade honoring the many soldiers, sailors, marines, and airmen who have served their country in times of war and peace.

Cultural

Many local organizations provide the local community with a reasonably priced opportunity to enjoy the arts and culture. These include the Butler Arts Council, Associated Artists of Butler County, Blazing Star Choral Society, Butler Little Theater, and Musical Theater Guild.

The Butler County Symphony has provided quality orchestral performances for over forty years. The Butler County Symphony's office is located in downtown Butler across from the Court House.

The Maridon Museum opened its doors in 2004. The museum building and its entire collection are the gifts of the late Mary Hulton Phillips of Butler. Located in the City of Butler, the museum contains an outstanding collection of Chinese and Japanese art objects as well as an extensive collection of German Meissen porcelain art.

MAJOR INITIATIVES AND FACTORS AFFECTING FINANCIAL CONDITION

County officials continue to plan and promote initiatives for economic growth and job development. These initiatives are designed to enhance the overall quality of life for the citizens of the County while balancing the desire for low taxes and controlled growth.

The County has promoted access to public libraries by appropriating funding to the County's Federated Library System and Book Mobile. The County continues to encourage economic development through an annual appropriation of \$150,000 to the Butler County Community Development Corporation.

The County is an active participant in the state's Farmland Preservation Program. The program funds the creation of agricultural easements protecting qualifying farmland from future development. The program provides a financial incentive to qualifying farmers who choose to maintain their land exclusively for farming purposes. Through this program, the County has secured, in perpetuity, over 4,000 acres of farmland.

The County has been a leader in the implementation of emergency management and 911 technology. The County was among the first counties in Pennsylvania to install an enhanced 911 system - a computerized system that automatically displays a caller's physical location when an emergency call is received at the County 911 Center.

Emergency Operations moved in to a new public safety facility in May 2006. The Center is located near the Sunnyview Nursing Home complex in Butler Township. The cost of the new facility totaled approximately \$2 million.

The County continues to upgrade its emergency services program. A new, more reliable high-band communication system was installed during 2004 and was made available to all emergency service personnel in 2005. This system upgrade improved communication between fire departments, police, and EMS services. The cost of the system was \$4.9 million and will be funded by the \$1.25 monthly phone line charge paid by all of the County's commercial and residential phone subscribers. Additional funding for this capital project came from the County's 2004 general obligation bond issue.

Approximately, 65 percent of County 911 calls originate from cell phones. The state legislature imposed a monthly fee of \$1.00 on cell phone subscribers to help offset the cost of cell phone-related 911 calls. The County receives approximately \$1,000,000 annually in cell phone fees. In March of 2007, the Center implemented Phase I technology that helps locate wireless 911 callers. Phase I gives the Center the telephone number of the caller and the location of the cell tower the call is coming from. Phase II of the wireless upgrade was completed in 2008. Phase II gives the actual location of the wireless 911 caller.

Pennsylvania counties have the option of imposing a bed tax of up to three percent on overnight lodging charges. The County established, by ordinance, a bed tax on January 1, 2002 at a three percent level. Collections from the tax totaled \$950,000 in 2010. All collections must be used exclusively for tourism promotion through the County's designated tourism promotion agency.

Tax revenues continue to grow for many taxing districts in the County, particularly those located in areas experiencing significant amounts of growth. Annual County property tax revenues typically grow by \$700,000 or more without any change in the millage rate.

Several County school districts have experienced a growth in tax revenues similar to that experienced by the County. However, the impact of the additional revenue has tended to be offset by the cost associated with additional student enrollments and other factors.

As described earlier, two factors which are expected to have a measurable impact on school district budgets over the next several years are: (1) funding of the shortfall in the Pennsylvania School Employee's Retirement System (PSERS) which has been deferred until the 2012-2013 school budget year and (2) funding of retiree health care benefits for those school districts providing such benefits.

School districts are now required to disclose the liability and annual funding obligation they have for post-employment benefits such as health care.

The funding of pension and retiree health care could prove burdensome to some school districts and intensify dissatisfaction with Pennsylvania's property tax system.

ACCOUNTING SYSTEM, INTERNAL CONTROL, AND FINANCIAL POLICIES

All Governmental Funds are accounted for on the modified accrual basis of accounting. The Agency Funds are on an accrual basis of accounting. The government-wide financial statements are prepared under GASB Statement No. 34 on the full-accrual basis of accounting. See the section that follows titled GASB Statement No. 34. Under modified accrual, revenue is recorded when susceptible to accrual and considered both measurable and available. Available is defined as collectible within the current period or soon enough thereafter to pay current liabilities.

Expenditures are generally recognized when the related fund liability is incurred except for: (1) disbursements for inventory items, which are recorded as expenditures at the time of purchase and (2) principal and interest on general long-term debt, which is recognized when it becomes due. Financial statements for the Proprietary Funds and Pension Trust Fund are maintained on a full-accrual basis, with revenue recognized when earned and expenses recorded when incurred.

The adequacy of internal control is given consideration when evaluating the County's accounting system. Internal accounting controls are intended to provide reasonable, but not absolute assurance that: (1) assets are safeguarded against loss from unauthorized use or disposition; (2) the financial records used for preparing financial statements are reliable; and (3) accountability for assets is properly maintained.

The concept of reasonable assurance recognizes that the cost of maintaining an internal control procedure should not exceed the benefits likely to be derived from it. Reasonable assurance also recognizes that any evaluation of cost and benefits involves the use of estimates and judgments by management.

The Commissioners are required to adopt, by resolution, the annual budget by December 31st of each year. The County maintains budgetary controls that secure compliance within the provisions set by the budget resolution and Pennsylvania statute. The Budget Director and the Office of the County Controller maintain budgetary control at the departmental level through a monitoring and review process. A description of the budget process is provided in Note 1 to the basic financial statements.

The Commissioners must authorize any expenditure that would cause the budgetary control level to be exceeded through a public action. Appropriations

lapse at the close of the fiscal year to the extent that they have not been expended.

EXPLANATION OF FUND STRUCTURE

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for with a separate set of self-balancing accounts comprising its assets, liabilities, fund equity, revenues and expenditures/expenses.

For additional information regarding the various fund types utilized by the County, see Note 1 to the basic financial statements.

SUMMARY OF 2010 FINANCIAL ACTIVITY INCLUDING SIGNIFICANT POLICY DECISIONS AFFECTING THE FINANCIAL STATEMENTS

The governmental funds within the County include the General Fund, forty Special Revenue Funds, eleven Capital Project Funds, and a Debt Service Fund. The governmental funds' total revenues equal \$119,266,393 and total expenditures equal \$117,562,961 for the year. The County has three proprietary funds, one pension trust fund, and nine agency funds.

The General Fund had total revenues of \$47,873,625 and expenditures totaling \$43,054,471. The unreserved fund balance for the General Fund was approximately \$10.2 million, an increase of approximately \$1.6 million.

General Fund expenditures totaled approximately \$43.1 million in 2010. The schedule appearing on page I-25 displays 2010 General Fund expenditures and transfers by administrative category totaling approximately \$48.9 million. For the purposes of trend analysis, the schedule provides a comparison of 2010 expenditures to 2000 expenditures.

The reader is directed to the Management's Discussion and Analysis section of this report for further narrative on the County's year-end financial condition and outlook.

The County had \$150,000 held at year-end in Capital Project accounts.

The County Employee Pension Fund is a fiduciary account established under Pennsylvania Act 96. The Pension Fund provides a defined benefit retirement plan for all eligible County employees. The net assets held in trust totaled \$120,283,379 as of December 31, 2010. Net assets increased by \$16,226,050 from December 31, 2009.

The County Pension Fund appropriation represents one of the largest components of the County budget. The pension fund appropriation totaled \$6.1 million in 2010. Approximately half of the total pension fund appropriation is reimbursed to the County by the State. The County continues to meet its actuarially-determined pension obligation each year.

The County had no net pension obligation (NPO) as of December 31, 2010. For additional information, see Note 7 to the basic financial statements.

The County provides no other post-employment benefits other than those established through the Employee Pension Plan under Pennsylvania Act 96. The County does not have any pre-existing or potential liability for any such benefits granted to employees in prior years.

Most County employees were affected in 2009 by a policy change in the County's health care coverage. Employees who now elect health care coverage must contribute 1.5% of their annual salary toward the cost of that coverage.

In 2008, the Board of Commissioners adopted an ordinance changing the value assigned to taxable real estate. Property is now assessed at 100% of its imputed 1969 value, versus 75% previously. The Board action became effective in 2009 and will allow County millage rates to exceed previous statutory threshold levels.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association awarded the County's 2009 CAFR its *Certificate of Achievement for Excellence in Financial Reporting*. This represents the ninth consecutive year the County has attained the achievement.

In order to be awarded a Certificate of Achievement, a government must publish a well-organized and easily readable comprehensive annual financial report. The report must satisfy the requirements set by the GFOA as well as meet certain established accounting and auditing standards.

A Certificate of Achievement is valid for a period of one year only. We believe the 2010 CAFR continues to meet the requirements established by the Certificate of Achievement Program and we are submitting the report to the GFOA to determine its eligibility for another certificate.

Preparation of this report could not occur without the cooperation of many people. Special appreciation is reserved for Deborah Huth, First Deputy Controller and the staff of the County Controller's Office. This report is the product of their dedication, hard work, and conscientious desire to provide the public with accurate and informative financial information.

It is also important to acknowledge the assistance of others who contributed to the successful completion of this year's report, including the Board of County Commissioners, the County Treasurer's Office, the County Planning Department, the County Election Bureau, the County Prothonotary, and the County Property and Revenue Office. Additional appreciation is extended to the row offices and departments supplying the statistical information appearing in this year's report.

Special appreciation is again expressed to the staff of Maher Duessel for their support and direction in the successful preparation of this report.

Respectfully submitted,

Joer nimill.

John R. McMillin, Jr. County Controller

Certificate of Achievement for Excellence in Financial Reporting

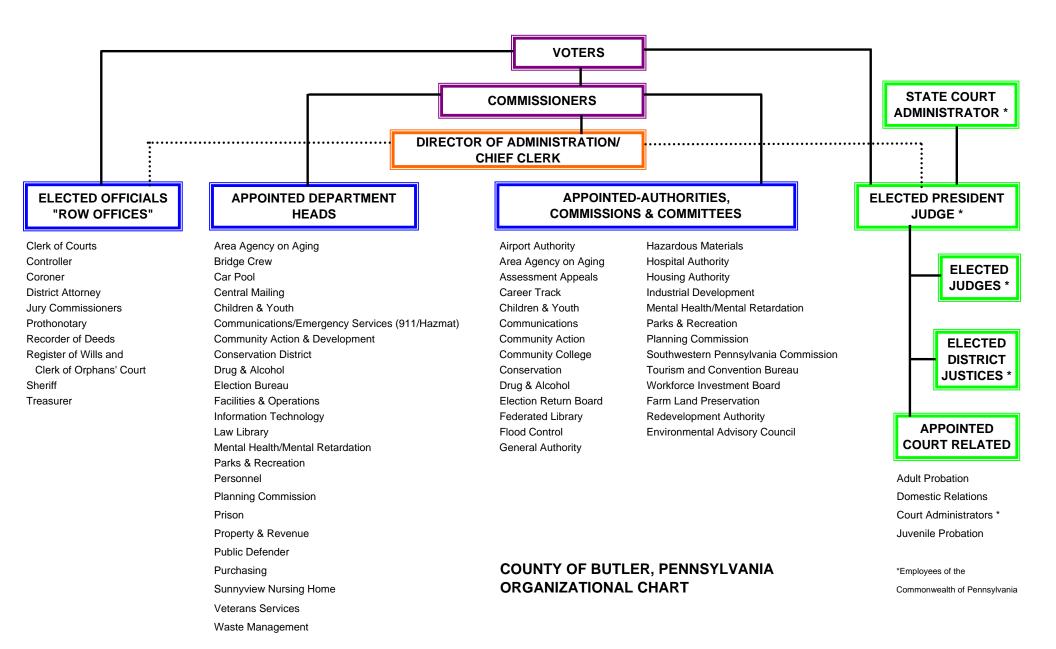

Presented to

County of Butler Pennsylvania

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditor's Report

Board of County Commissioners and County Controller County of Butler, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Butler, Pennsylvania, (County) as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of December 31, 2010, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages II-3 through II-25 and the pension information on pages IV-1 through IV-3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the

Board of County Commissioners and County Controller County of Butler, Pennsylvania Independent Auditor's Report

basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Maher Duessel

Pittsburgh, Pennsylvania June 30, 2011

INTRODUCTION

The management of the County of Butler (County) is pleased to present to the readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2010. The information contained herein should be considered in conjunction with the additional information that we have furnished in the letter of transmittal (pages I-2 to I-26), the basic financial statements (pages III-1 to III-13), and the notes to financial statements (pages III-14 to III-79).

FINANCIAL HIGHLIGHTS

- The County's net assets increased \$1,229,909 to \$47,633,800 in 2010.
- Unrestricted net assets were \$15.4 million at December 31, 2010.
- The County's real estate property tax rate for general purpose remained at 19.688 mills.
- The County's real estate property tax rate for debt service remained at 3.94 mills.
- ➡ The County maintained an A+ rating from Standard & Poor's.
- At December 31, 2010, the County had \$57.4 million of debt outstanding. This represents a net decrease of approximately \$2.4 million.
- The total fund balance of the General Fund at December 31, 2010 was \$11.5 million. The unreserved/undesignated portion of the fund balance was \$2,751,493. The unreserved/designated fund balance for the 2011 Budget is \$6.8 million, which represents approximately 12.1% of the revenue projected for 2011.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

A detailed explanation of all three components follow:

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business.

The *statement of net assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation or sick leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include: general government, criminal justice system, public safety, public works, human services, culture and recreation, and conservation and development. The business-type activities of the County include the operation of the Sunnyview Nursing and Rehabilitation Center and the Emergency Communications 911 Center, including Wireless 911.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also the component units of the Butler County Community College and the Butler County Airport Authority, over which the County exercises some degree of control. Financial information for these component units is reported separately from the financial information presented for the primary government itself. Each of the component units issue separate financial statements.

The government-wide financial statements can be found on pages III-1 and III-2 of this report.

- Fund Financial Statements The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the County can be divided into three categories: (1) governmental funds, (2) proprietary funds, and (3) fiduciary funds.
 - Governmental Funds Governmental funds are used to account for essentially the same functions as reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds - balance sheet and the governmental funds - statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains fifty-three individual governmental funds. Information is presented separately in the governmental funds - balance sheet and in the governmental funds - statement of revenues, expenditures, and changes in fund balance for the six *major* funds (General, MH/MR, Health Choices, Health Choices Reinvestment, Children & Youth Services, and Capital Bond Issue). Data from the other forty-six *non-major* governmental funds are combined into a single, aggregated presentation (Other Governmental Funds). Individual fund data for each of these other governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages III-3 to III-8 of this report.

• Proprietary Funds - The County maintains one type of proprietary fund, namely Enterprise Funds. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses Enterprise Funds to account for the Sunnyview Nursing and Rehabilitation Center operations the Emergency Communications 911 and Wireless 911 Center.

The proprietary funds statement provides the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Sunnyview Nursing and Rehabilitation Center operations, the Emergency Communications 911 and Wireless 911 Center. The proprietary fund financial statements can be found on pages III-9 to III-11.

• Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages III-12 and III-13 of this report. It includes the Pension Trust Fund and the Agency Funds. The Agency Funds are the fees, fines, costs, etc., collected by the County Row Officers, held in trust for disbursement to third parties.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages III-14 to III-79 of this report.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding and its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages IV-1 through IV-3 of this report.

The combining statement referred to earlier in connection with other governmental funds is presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages V-1 to V-13 of this report.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE:

The County is presenting its financial statements as required by Governmental Accounting Standards Board Statement No. 34 (GASB Statement No. 34), "Basic Financial Statements - and Management's Discussion and Analysis (MD&A) - for State and Local Governments." The statement of net assets and the statement of activities report information about the County as a whole and about its activities to measure the results of the year's activities.

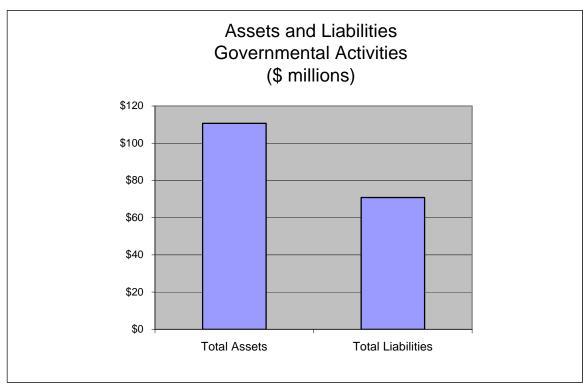

GOVERNMENT-WIDE FINANCIAL STATEMENTS:

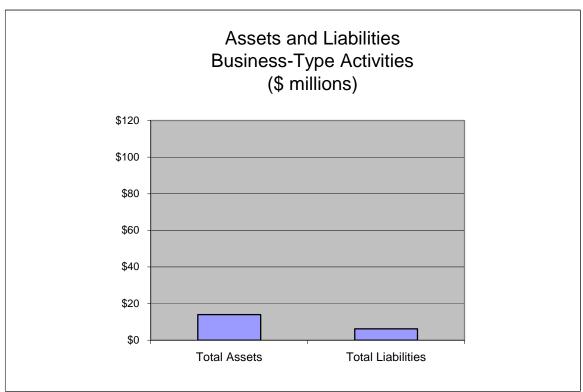

The County's net assets at December 31, 2010 and 2009 are presented below:

COUNTY OF BUTLER Summary of Statement of Net Assets December 31, 2010 (With Comparative Totals at December 31, 2009) (in thousands)

The following graph depicts assets and liabilities at December 31, 2010 by activity type:

DISCUSSION OF SUMMARY OF NET ASSETS AND ASSETS IN GENERAL – GOVERNMENTAL ACTIVITIES:

At the end of 2010, the County's total net assets related to governmental activities increased \$1,561,556. Cash and cash equivalents increased from \$16.0 million (2009) to \$16.9 million at the end of 2010. At the end of 2010, the County's total current and other assets related to governmental activities increased by approximately \$266,000. The General Fund cash and cash equivalents increased from \$3.6 million to \$5.0 million at 2010 year-end, mainly because the unreserved fund balance and cash investments beginning in year 2010 were higher than originally estimated.

Capital assets increased to \$74.8 million at the end of 2010 compared to \$73.8 million at 2009 year-end. The increase in capital assets is attributed mainly to (1) the implementation of GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," which retroactively reported intangible assets and (2) additional bridge projects during 2010. These additions, netted with the increasing depreciation expense as a result of the capitalization of the prison in the prior year, account for the increase.

GASB Statement No. 34 requires that all capital assets, including infrastructure, be valued and reported in the government-wide financial statements. Retroactive reporting of projects acquired or finished prior to 2003 occurred during 2007 through the County's implementation of retroactive infrastructure.

Of the net assets, \$1.1 million are restricted for various purposes; \$15.9 million is unrestricted and is available to support operations or provide for the payment of long-term debt at the government-wide level. \$22.9 million is invested in capital assets, net of related debt.

DISCUSSION OF SUMMARY OF NET ASSETS AND ASSETS IN GENERAL – BUSINESS-TYPE ACTIVITIES:

During 2010, the net assets of the County's business-type activities decreased slightly from \$8,080,198 to \$7,748,551 with a deficit of \$408,454 being unrestricted.

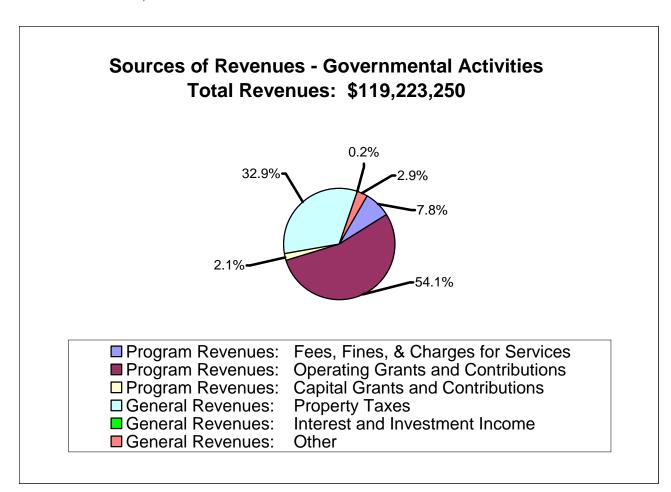

Cash and cash equivalents increased by approximately \$221,000, accounts receivable and due from other governments were down by approximately \$179,000, the reduction of internal balances decreased by approximately \$245,000, and capital assets decreased by approximately \$930,000. Liabilities decreased by approximately \$464,000.

The following table presents the change in net assets for the years ended December 31, 2010 and 2009:

SOURCES OF REVENUES – GOVERNMENTAL ACTIVITIES:

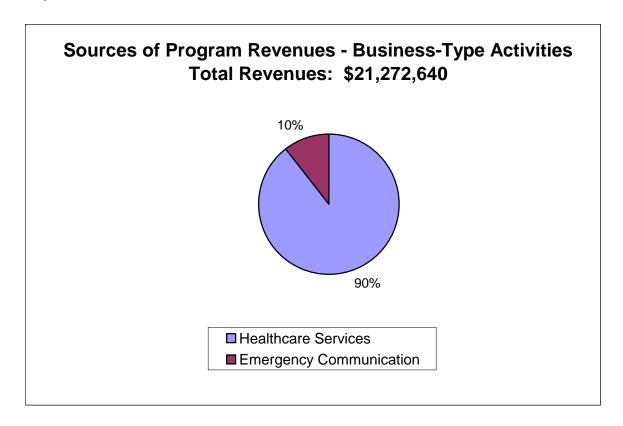

The following chart graphically depicts the governmental activities sources of revenues for the year ended December 31, 2010:

Total revenue from governmental activities for 2010 was \$119,223,250, which was approximately \$1.7 million lower than the 2009 year. Operating grants and contributions account for 54.1% of the 2010 governmental activities revenue, amounting to \$64,498,232 compared to \$68,740,013 in 2009. Operating grants and contributions attributed to Human Services decreased from \$64.1 million in year ending 2009 to \$59.8 million for year ending 2010. This decrease is mainly attributable to the change in funding for Mental Health/Mental Retardation Services. In previous years, funding had been given to the County, who then would pass the money through to providers. Beginning in calendar year 2010, the Commonwealth of Pennsylvania (Commonwealth) now provides the funding directly to the providers. Funding for Human Services continued to lead the way in operating grants within the government activities sources of revenue. Health Choices, a 100% funding pass-through administered by the Mental Health Department, increased by \$2.3 million in 2010 to nearly \$29.7 million. General revenues – taxes increased from \$38.6 million in 2009 to \$39.2 million.

SOURCES OF REVENUES – BUSINESS-TYPE ACTIVITIES:

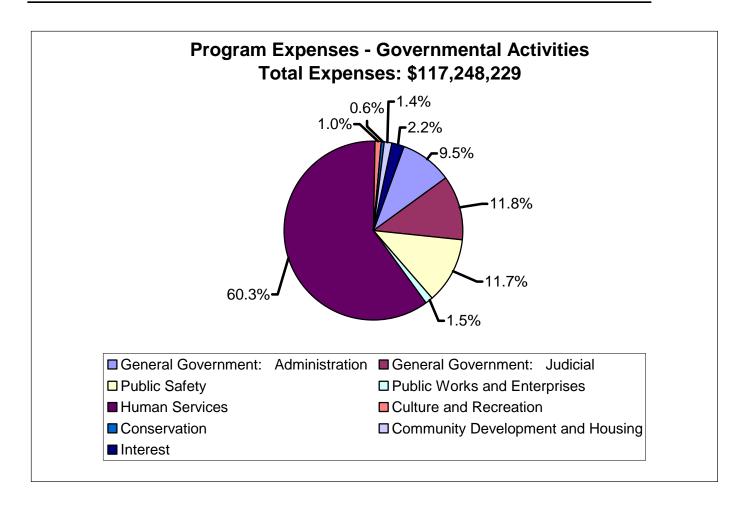

The following chart graphically depicts the business-type activities sources of program revenues for the year ended December 31, 2010:

Sunnyview Nursing and Rehabilitation Center and the Emergency Communications 911 and Wireless 911 Center are the two business-type activities reported with the County. Sunnyview Nursing and Rehabilitation Center received revenue of \$19.0 million in 2010 compared to \$18.3 million in 2009. Intergovernmental revenue for Sunnyview Nursing and Rehabilitation Center slightly increased by approximately \$134,000 and patient and client services increased by approximately \$573,000. The revenue received by Emergency Communications 911 and Wireless 911 slightly increased to \$2.2 million in 2010 from \$1.9 million in 2009.

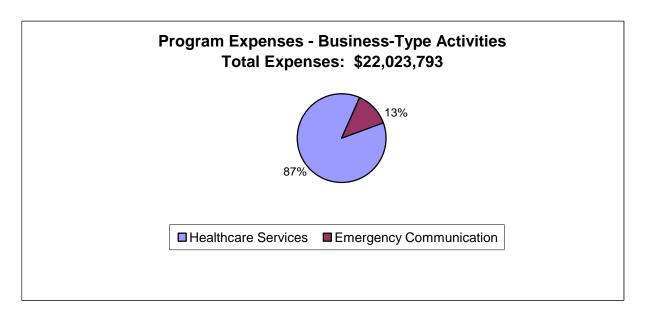

PROGRAM EXPENSES:

The following chart graphically depicts the governmental activities program expenses for the year ended December 31, 2010:

Program expenses for the County's governmental activities amounted to approximately \$117.2 million for year ending 2010. This compares to \$117.6 million for year ending 2009. General government – administration increased from \$9.8 million in 2009 to \$11.1 million in 2010. This increase of \$1.3 million in 2010 was distributed across a variety of expenditures with no one increase being of any significance. Human Services expenses decreased from \$73.3 million in 2009 to \$70.7 million in 2010. This is a result of how funds related to Mental Health/Mental Retardation Services are distributed. Prior to 2010, these funds were received by the County and passed to providers. Beginning in calendar year 2010, the Commonwealth now sends the funds directly to the providers. The remainder of the expense categories remained fairly consistent between 2009 and 2010.

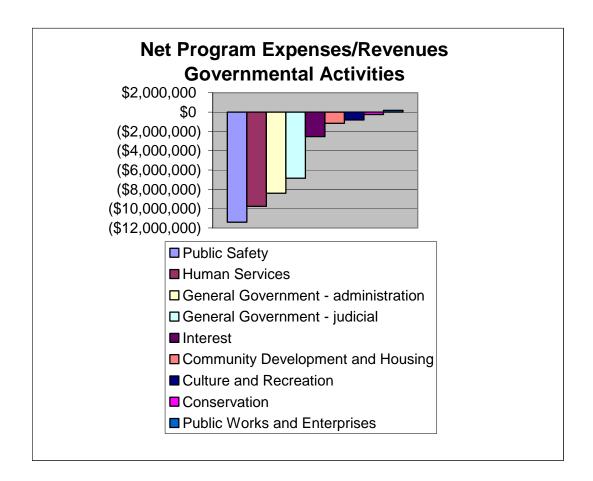

The following chart graphically depicts the business-type activities program expenses for the year ended December 31, 2010:

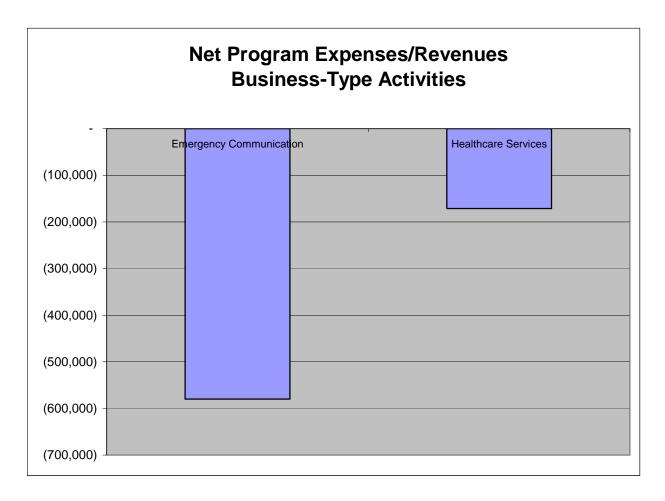

Program expenses for Sunnyview Nursing and Rehabilitation Center slightly decreased to \$19.2 million in 2010 from \$19.3 million for the 2009 year. The Emergency Communications 911 and Wireless 911 Center expenses slightly increased to \$2.8 million in 2010 from \$2.7 million in 2009.

NET PROGRAM EXPENSES/REVENUES:

Net program expenses/revenues indicate the amount of support required from taxes and other general revenues for the year. The following chart graphically depicts the net program expenses/revenues by function/program for the year ended December 31, 2010:

Net program expenses/revenues for governmental activities increased from (\$38.6) million in 2009 to (\$41.0) million in 2010. The change is mainly attributed to changes in the Human Services Funding. Human Services operating grants and contributions revenue decreased approximately \$4.3 million. Human Services expense decreased by approximately \$2.6 million. General governmental administration expenses increased by \$1.3 million in 2010, with no significant change in any one department, but attributed to an accumulation of moderate increases in expenses across a variety of areas.

Expenses at Sunnyview Nursing and Rehabilitation Center slightly decreased by \$0.1 million to \$19.2 million in 2010 compared to \$19.3 million in 2009. Expenses for the Emergency Communication services remained consistent at \$2.8 million for both 2010 and 2009.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS:

The County, located in southwestern Pennsylvania, lies on the fringe of the Pittsburgh urban area and has been linked to the Pittsburgh area for employment, recreation, and cultural opportunities. Since 1970, it has been the growth county in the southwest region, with a growth rate of 36% (46,142 persons) between 1970 and 2000. The population in the County went from 152,013 in 1990 to 174,598 in 2000. Estimates now place the population at 183,862.

The County's steady growth can be attributed to its location at the crossroads of several major highways, availability of developable land served by public utilities, favorable tax base, and proximity to the Pittsburgh area.

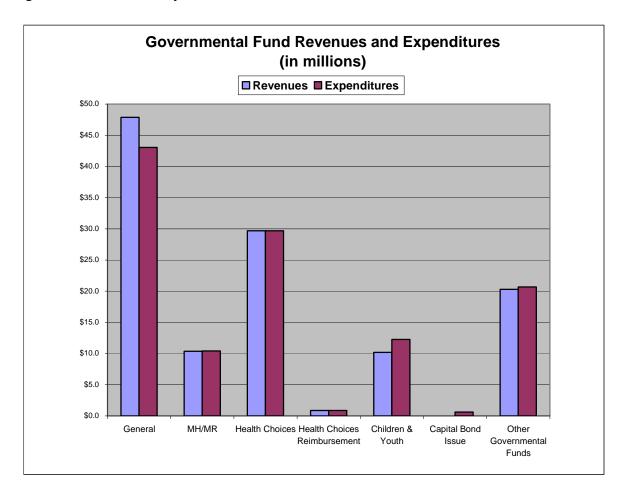

During the year ending December 31, 2010, municipalities within the County issued 2,385 building permits, down from 2,650 issued in 2009. Annually, the Assessment Office sends each municipality a letter explaining the current requirements of the UCC (Uniform Construction Code). The County assessors also canvas each municipality in search of construction without a building permit being issued. The fair market value of real estate increased by \$1.8 billion during 2010 to a total market value of \$11.9 billion. The difference results from new housing construction and additions.

In 2009, the County billed over \$126,517 in additional interim taxes. The interim tax bills include new construction from the date of completion for the remaining months in the calendar year. In 2010, the County billed over \$139,648 in additional interim taxes.

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

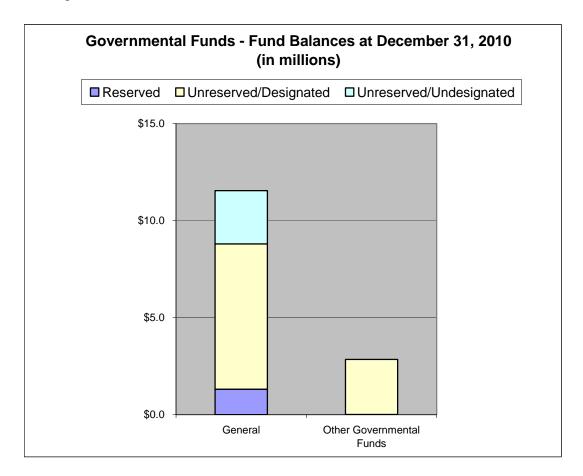

Governmental Funds – The County has fifty-two governmental funds; six of them are major funds (General, MH/MR, Health Choices, Health Choices Reinvestment, Children and Youth Services, and Capital Bond Issue) and forty-six of them are other governmental funds. A complete listing of the other governmental funds are listed on pages V-1 to V-8. The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved/undesignated fund balances may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

The following chart graphically depicts the total revenues received and expenditures incurred by the governmental fund for year ended December 31, 2010:

The majority of revenues and expenditures occurred in the General Fund, Health Choices, and the Children and Youth Fund in 2010. Under the General Fund, revenue from taxes amounted to \$36.9 million. Children and Youth received \$9.8 million in base allocation and grants and \$376,945 in other revenue. Health Choices, a 100% grant funded program, received \$29.7 million in 2010.

The following chart reflects the Governmental Fund fund balances as of December 31, 2010:

The General Fund fund balance at December 31, 2010 was \$11.5 million, with \$6.8 million designated for the 2011 Budget. The Capital Bond Issue fund balance was \$0 at December 31, 2010, down from \$618,000 at December 31, 2009. This is primarily a result of the completion of the new County Prison in 2009. Other Governmental Funds fund balance increased from \$2.4 million at December 31, 2009 to \$2.8 million at December 31, 2010. This \$0.4 million increase is mainly due to an increase in the operating reserve fund balance.

GENERAL FUND BUDGETARY HIGHLIGHTS:

The fund balance in the General Fund for year ending 2010 increased by approximately \$1.6 million from the 2009 level. At December 31, 2010, the General Fund unreserved fund balance was approximately \$10.2 million, of which \$6.8 million was designated for the 2011 County Budget and \$2.8 million was unreserved, undesignated, with the remaining funds designated for worker's compensation.

There were no significant differences in the General Fund between the original and final budget.

The major differences in the General Fund final budget compared to the actual amounts are as follows:

- Under taxes, there was approximately \$800,000 more in revenue than budgeted; this was a result of the percent of collection for current real estate taxes in 2010 being higher than originally budgeted.
- Under charges for services, there was approximately \$1 million more in revenue than budgeted. This was mainly attributable to an increase in amounts received from the Sheriff's office in 2010. The County engaged a consultant to compile the records of the Sheriff's office. As a result, the Sheriff's office turned over approximately \$1.4 million to the County during 2010. The Sheriff's office was only budgeted at approximately \$600,000.
- General government administration expenses were under budget by approximately \$1.1 million. This was a result of (1) less expenditures for unanticipated legal as a result of settling the majority of litigation surrounding the construction of the new County Prison. \$500,00 was originally budgeted, but only \$39,000 was expended in 2010; (2) personnel and audit contract costs in the Controller's Office were less than anticipated; (3) equipment, maintenance, and rental costs, along with advertising costs, were less than budgeted in the Property and Revenue Department; (4) employee benefit costs were approximately \$150,000 less than budgeted.
- General government judicial expenses were under budget by approximately \$1.1 million. This was a result of (1) Court Administration expenditures coming in \$333,000 less than budgeted, mainly as a result of less employee benefit costs and (2) coroner expenditures were \$101,000 less than budgeted as a result of less spent on contracted services.
- Public safety expenses were under budget by approximately \$1.4 million. This was a result of (1) Prison expenditures for 2010 coming in at \$1 million less than budgeted, mainly attributed to less employee salary costs and significantly less utility expense than originally budgeted and (2) Adult probation expenditures were \$281,000 less than budgeted, mainly in the area of contracted services.

- Other expenses were under budget by approximately \$2.6 million, because the County budgeted for contingency and unanticipated legal expenses in the amount of \$2.4 million. During 2010, the County had no significant contingency and unanticipated legal expenses.
- Transfers out of the General Fund were under budget by approximately \$1,000,000 due to a lower than budgeted transfer to Sunnyview Nursing and Rehabilitation Center and Emergency Communications 911.

CAPITAL ASSET AND DEBT ADMINISTRATION – GOVERNMENTAL ACTIVITIES:

Capital Assets – The County's investment in capital assets and infrastructure for its governmental activities as of December 31, 2010 amounts to \$74.8 million (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, and bridges. The increase in capital assets is attributed mainly to (1) the implementation of GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," which retroactively reported intangible assets and (2) additional bridge projects during 2010. These additions, netted with the increasing depreciation expense as a result of the capitalization of the prison in the prior year, account for the increase.

The following is a summary of capital assets for the governmental activities at December 31, 2010 and 2009:

	Co	ounty of Butler	•									
	Summa	ry of Capital A	ssets									
Governmental Activities												
Balance at Balance at Increase/												
	Dec	ember 31, 2010	Dece	ember 31, 2009		Decrease

More detailed information about the County's capital assets can be found in Note 3 of the notes to financial statements.

LONG-TERM DEBT:

At December 31, 2010, the County had total debt of \$57.4 million, outstanding on the General Obligation Bonds.

County of Butler Summary of Long-Term Debt												
Curimary Cr	Go	vernmental Activities	Business-Type Activities									
Beginning Balance at January 1, 2010	\$	54,841,536	\$	4,875,000								
Additions		-		-								
Reductions		(1,601,536)		(760,000)								
Ending Balance December 31, 2010	\$	53,240,000	\$	4,115,000								

BOND RATING:

The County maintained an A+ bond rating from Standard & Poor's. This rating reflects the following credit characteristics: access to the large and diverse Pittsburgh MSA economy, below-average unemployment rates, and a strong financial position.

Mitigating factors to the rating include: below-average wealth levels and high debt levels. More detailed information about the County's debt can be found in Note 8 of the notes to financial statements.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT:

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the County's finances and to demonstrate the County's accountability. Questions concerning this report or requests for additional information should be directed to:

Office of the County Commissioners County of Butler, Pennsylvania 124 West Diamond Street P.O. Box 1208 Butler, PA 16003-1208

(Concluded)

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS

DECEMBER 31, 2010

Total Fund Balance - Governmental Funds	\$ 14,390,391
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets including construction in progress used in governmental activities are not current financial resources and therefore, are not reported as assets in governmental funds.	74,772,349
Property taxes receivable and other revenues will be collected in the future, but are not available to pay for the current period's expenditures and therefore, are deferred in the funds. Receivable amounts are shown net of allowances, but are not deferred in the governmental activities	
statements.	6,475,085
Governmental funds report the effect of premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	1,569,247
Long-term liabilities, including notes and bonds payable, are not due and payable in the current period and therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:	
Accrued workmen's compensation \$ (790,246)	
Accrued compensated absences (2,029,766) Bonds payable (53,435,162)	
Accrued interest on debt (1,066,649)	 (57,321,823)
Total Net Assets - Governmental Activities	\$ 39,885,249

See accompanying notes to financial statements.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2010

Net Change in Fund Balance - Governmental Funds		\$ 1,443,144
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:		
Capital outlays Less: depreciation expense	\$ 2,302,799 3,382,822	(1,080,023)
The net effect of various transactions involving capital assets (sales, demolition, etc.)		(75,973)
Some taxes and other revenues will not be collected for several months after the County of Butler's year-end, they are not considered as "available" revenues in the governmental funds. Unearned revenues changed by this amount during the year.		(184,471)
The issuance of long-term obligations (e.g. notes and bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term obligations and related items.		1,512,469
Interest on long-term obligations in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The difference in interest accrued in the statement of activities and the amount due is shown here.		41,304
In the statement of activities, certain operating expenses - accumulated employee benefits (workmen's compensation and sick days) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.		(94,894)
Change in Net Assets of Governmental Activities		\$ 1,561,556

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

A. BUTLER COUNTY – PRIMARY GOVERNMENT

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – PRIMARY GOVERNMENT

Reporting Entity

The County of Butler (County), located in southwestern Pennsylvania thirty-five miles north of the City of Pittsburgh, is a fourth class County, originally chartered on March 12, 1800. The County operates under an elected three member Board of Commissioners (County Commissioners). The County provides services in many areas to its residents, including various general government services, public safety, human services, and health and welfare.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

Component Units

Consistent with applicable guidance, the criteria used by the County to evaluate the possible inclusion of potential component units within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given situation, the County reviews the applicability of the following criteria:

The County is financially accountable for:

- 1. Organizations that make up the legal County entity.
- 2. Legally separate organizations if the County Commissioners appoint a voting majority of the organizations' governing body and the County is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the County.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

- a. <u>Impose its Will</u> If the County can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.
- b. <u>Financial Benefit or Burden</u> Exists if the County (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.
- 3. Organizations that are fiscally dependent on the County. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the County.

The following separately administered organizations meet the criteria for inclusion in the County's reporting entity as discretely presented component units.

Butler County Community College

The Butler County Community College's (BCCC) fourteen trustees are appointed by the County Commissioners and one Commissioner serves as an ex-officio member of BCCC's Board of trustees. Under the applicable Commonwealth of Pennsylvania statute, the Commonwealth of Pennsylvania and the County are each obligated to provide up to one-third of BCCC's operating budget and one-half of its capital and debt service requirements. In addition, BCCC issued approximately \$1,000,000 in additional debt during 2001 to finance a fire school. The County is 100% financially liable for this particular debt issue over the life of the debt. Accordingly, the County is financially accountable for BCCC. BCCC's fiscal year end is June 30th. Separately issued audited financial statements are available through BCCC's business office: College Drive; Oak Hills, P.O. Box 1203, Butler, PA 16003.

Butler County Airport Authority

The Butler County Airport Authority (Authority) was created to operate the Butler-Graham Airport. The Authority's seven-member Board is appointed by the County Commissioners and one Commissioner serves as an advisory member of the Board. The Authority's Board operates autonomously from the County and is responsible for the designation of management. The Authority is fiscally dependent on the County as bonded debt cannot be issued without the guarantee

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

of the County. The County is financially accountable for the Authority. Separately issued audited financial statements are available through the Authority's administrative office: 475 Airport Road, Butler, PA 16002.

Related Organizations

Following are organizations, which have the majority of their governing Board appointed by the County Commissioners, without the County being financially accountable for the organization:

Butler County City Connoquenessing Creek Flood Control Authority

The Butler County City Connoquenessing Creek Flood Control Authority (Authority) is a non-operating Authority with limited activity.

Butler County Housing Authority

The Butler County Housing Authority (Authority) administers HUD's Section 8 housing program for the County and is funded through federal grants and other revenues. The Authority's Board is appointed for five year staggered terms by the County and operates independently of any ongoing involvement of the County Commissioners. The County Commissioners must approve the concept of any major capital expansion project, but are not financially accountable for the Authority.

Butler County Industrial Development Authority

The Butler County Industrial Development Authority (Authority) issues low interest, tax-exempt bonds, and uses the proceeds to finance projects intended to stimulate economic growth in the County. The Authority's seven-member Board is appointed by the County and the Authority operates independently of any ongoing involvement of the County. The County Commissioners must approve the concept of any major bond issue of the Authority but only in relation to the benefit to the County of the projects that will be funded through the debt proceeds. The County has no legal responsibility for Authority debt.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Butler County Hospital Authority

The Butler County Hospital Authority (Authority) issues low interest, tax-exempt bonds to enable capital financing for hospitals and nursing homes. Five of the six members of the Authority's Board are appointed by the County. The sixth member of the Board is the Authority's president who is appointed by the other Board members. The Authority operates independently of any ongoing involvement of the County. The County Commissioners must approve the concept of any major project of the Authority, but are not financially accountable for the Authority. The County has no legal responsibility for Authority debt.

The Butler County Redevelopment Authority

The Butler County Redevelopment Authority (Authority) secures federal and state monies for public housing projects. All five Board members are appointed by the County. The Authority operates independently of any ongoing involvement of the County.

Butler County General Authority

The Butler County General Authority (Authority) was organized to provide local municipalities, school districts, and other governmental entities the ability to consolidate new debt issues to realize some potential cost savings from lower debt issuance costs. All five Board members are appointed by the County. The Authority operates independently of any ongoing involvement of the County.

Other Organizations

Following are organizations, which were evaluated and did not meet the criteria as component units, related organizations, or joint ventures:

Butler County Federated Library

The Butler County Federated Library (Federated Library) system consists of seven libraries in Butler County. Each of the libraries recommends a candidate for the Board, subject to approval by the County Commissioners. The system's manager is appointed by the Federated Library Board. Individual Library Boards appoint management of their respective libraries. Library operations are funded primarily by state grants and user fines and donations.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Tri-County Workforce Investment Board

The Tri-County Workforce Investment Board (WIB) is responsible for the operation of the WIB and Career Track programs for Armstrong, Indiana, and Butler Counties. The WIB's operations are financed by federal government grants. While the three Counties are responsible for any disallowed costs of the WIB, annual operating contributions are not required. The WIB's Board is appointed one-third by each of the participating counties. An executive committee composed of one commissioner from each County may be overruled by the WIB's Board.

Butler County Tourism and Convention Bureau

The Butler County Tourism and Convention Bureau is responsible for planning and promoting programs designed to stimulate and increase the volume of tourist, visitor, vacation-convention business within the County and to exercise all powers incident to and necessary thereto.

Southwest Behavioral Health Management, Inc.

Southwest Behavioral Health Management, Inc. is a private, non-profit corporation incorporated for the purpose of monitoring the behavioral health services of the HealthChoices program. Southwest Behavioral Health Management, Inc. operates primarily under funding administered through six counties, one of which being the County, that jointly formed the corporation.

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the County as a whole excluding fiduciary activities such as the pension plan and agency funds. The primary government and component units are presented separately within the financial statements with the focus on the primary government. The statements distinguish governmental activities, which are generally supported by taxes and intergovernmental grants, from business-type activities, which rely to a significant extent on fees charged to external customers. Likewise, the primary government is reported separately from its legally separate component units for which the primary government is financially accountable.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Separate financial statements are provided for governmental funds, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The financial statements of the County are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The County's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements and applicable Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless they conflict with GASB pronouncements. Governments also have the option of following subsequent private-sector guidance for their business-type and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity. Proprietary and pension fund financial statements and financial statements of the County's component units also report using this same focus and basis of accounting. Agency funds are also reported on the accrual basis; however, they have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The availability period used for revenue recognition under the modified accrual basis of accounting is zero days. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

In general, property taxes, franchise taxes, intergovernmental revenues, investment income, and other revenues associated with the current fiscal period are considered to be measurable and available only when cash is received by the County or its agent.

The government reports the following major governmental funds:

The *General Fund* is the principal operating fund of the County which is used to account for all financial transactions except those required to be accounted for in other funds.

The *Mental Health/Mental Retardation Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Health Choices Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Health Choices Reinvestment Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The *Children & Youth Services Fund* is used to account for the proceeds of revenue received from various federal, state, and county sources. This fund is restricted for the provision of specified social services to eligible recipients.

The Capital Bond Issue Fund is used to account for the proceeds from the offering of its General Obligation Bonds. This fund is restricted for capital projects as described in the applicable bond documents.

The government reports the following major proprietary funds:

The Sunnyview Nursing Home Fund is a nursing home funded through a combination of third party insurance, federal reimbursement, and County contributions.

The *Emergency Communications 911* and *Wireless 911 Fund* are used to account for the County's emergency communication systems, which are funded by phone user charges, state grants, and County contributions.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Additionally, the government reports the following fund types:

The *Pension Trust Fund* accounts for the activities of the Employees Retirement System, which accumulates resources for pension benefit payments to qualified employees.

The Agency Funds are custodial in nature and do not involve measurement of results of operations. Agency funds are used to account for cash collected by elected row officers (Treasurer, Register of Wills, Prothonotary, District Justice Courts, Clerk of Courts, and Recorder of Deeds) and other County offices that are subsequently disbursed to other governments or individuals for whom it was collected.

Revenue Classification on Government-Wide Statement of Activities

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Amounts reported as program revenues include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are also reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise fund are charges to customers for sales and services. Sunnyview Home also recognizes as operating revenue reimbursement received from the Commonwealth of Pennsylvania for services provided to patients. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Sunnyview Home patient revenue is reported at the estimated net realizable amounts from the residents and third-party payers. Revenue under third-party payer agreements is subject to audit and retroactive adjustment. Provisions for estimated third-party payer settlements are provided in the period the related services are rendered. Differences between the estimated amounts accrued and ultimate final settlements are reported as adjustments become known.

Sunnyview Home is also subject to the laws and regulations governing the Medicare and Medicaid programs. These laws and regulations are complex and subject to interpretation. Sunnyview Home believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government reviews and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Use of Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Interfund Activity in the Government-Wide Statements

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are the yearly contributions made to the component units from the County's governmental funds and transfers between governmental funds and business-type and fiduciary funds. Elimination of these contributions would distort the direct costs and program revenues reported for the various functions concerned.

Cash and Cash Equivalents

For the purposes of the cash flow statement, cash and cash equivalents include all highly liquid investments with a maturity of three months or less when purchased.

Investments

Investments for the government are stated at fair value based on current market prices.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

<u>Inventories and Prepaid Items</u>

Inventories used in governmental funds, principally supplies, are accounted for as expenditures when purchased. The amount of inventory at December 31, 2010 in proprietary funds is not significant.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include land, building and building improvements, furniture and equipment, intangibles and infrastructure (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are valued at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as constructed and placed into service. Construction in process is not depreciated until it is placed into service. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Property, plant, and equipment of the primary government, as well as the component units, are depreciated/amortized using the straight-line method (with one-half a year's worth of depreciation/amortization taken in the first year) over the following estimated useful lives:

Buildings and improvements

Furniture and equipment

Technology software

Infrastructure

10 - 50 years

3 - 20 years

5 - 20 years

Compensated Absences

The County follows the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Calculation of the liability amount is determined by the appropriate vacation, sick, and lump sum payments, which would be available to employees if they would leave or retire from the County.

All accumulated vacation pay and sick pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Fund Equity and Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net assets are classified into three components, defined as follows:

- Invested in capital assets, net of related debt This component of net assets
 consists of capital assets net of accumulated depreciation and reduced by the
 outstanding balances of any bonds, mortgages, notes, or other borrowings that
 are attributable to the acquisition, construction, or improvement of these
 assets.
- Restricted This component of net assets consists of constraints placed on net asset use through external restrictions. Two categories are used to further describe restricted net assets:
 - Expendable can be expended in compliance with the external restriction
 - Nonexpendable net assets that are required to be retained in perpetuity

Expendable restricted net assets at December 31, 2010 of the County consist of: (1) \$790,246 for workmen's compensation, (2) \$332,174 for highways and roads, and (3) \$968,288 for emergency services.

• Unrestricted – The component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Allocation of Indirect Expenses

The County allocates indirect expenses, primarily comprised of central governmental services, to operating functions and programs benefiting from those services. Central services include overall County management, centralized budgetary formulation and oversight, accounting, financial reporting, personnel, purchasing, cash management, and other central administrative services. Allocations are charged to programs based

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

on use of central services determined by various allocation methodologies. These charges are included in direct expenses in the statement of activities.

Budgets and Budgetary Accounting

Annual budgets are required to be adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund. The budgetary controls for all other governmental funds are maintained through enforcement of related grant provisions or debt indentures.

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Starting in August and September, the Budget Director prepares a budget package that is sent to each department and row officer. The department or agency heads use this budget package to develop financial projections for their programs for the ensuing year, which are then submitted to the budget staff.
- 2. The budget staff enters this information into budget spreadsheets. The Chief Clerk then reviews the information that is obtained, accumulates questions, and schedules a meeting to discuss the proposed budget with the department heads and row officers.
- 3. Once the budget staff is satisfied with the department's budget numbers, the budget is presented in preliminary form to the County Commissioners. The County Commissioners can interview department or agency heads to discuss their budgets if deemed necessary.
- 4. Upon consolidation of the department and agency expenditure projections, the County Commissioners ascertain the most viable method of financing them.
- 5. Subsequently, the Budget Director assembles the preliminary projections of revenues and expenditures into a final budget incorporating any revisions or adjustments resulting from the aforementioned County Commissioners' review.
- 6. By early December, the final budget is presented to the County Commissioners. Pursuant to budgetary requirements as set forth in the

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

County Code, public notice is given that the final budget is available for inspection for a period of 20 days.

7. After the 20-day inspection period, but no later than December 31, the County Commissioners adopt the final budget by enacting an appropriate resolution.

Legally, management of the County may make budgetary transfers between departments without approval by the County Commissioners as long as overall fund expenditures are not affected. Department heads may make budgetary transfers within their own department as long as overall department expenditures are not affected. However, as a matter of control all such transfers are subsequently ratified by the County Commissioners. The County Commissioners may at any time, by resolution, make supplemental appropriations for any lawful purpose from any funds on hand or estimated to be received within the fiscal year and not otherwise appropriated, including the proceeds of any borrowing now or hereafter authorized by law. The County Commissioners may authorize the transfer of any unencumbered balance of any appropriation item or any portion thereof. The County Commissioners must approve changes to overall appropriations at the fund level. Therefore, the legal level of budgetary responsibility is by fund.

During the year, there were no significant supplemental appropriations enacted. Budget transfers did occur between accounts within funds. The statement of revenues, expenditures, and changes in fund balance - budget and actual, reflects the originally adopted budget and the originally adopted budget adjusted for budget transfers. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Adopted Pronouncements

GASB issued Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," effective for periods beginning after June 15, 2009. This statement provides guidance regarding whether and when intangible assets should be considered capital assets for financial reporting purposes.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Pending Pronouncements

GASB issued Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," effective for periods beginning after June 15, 2010. This statement provides clearer, more structured fund balance classifications, and clarifies the definitions of existing governmental fund types. The effect of implementation of this statement has not yet been determined by the County.

Restatement of Net Assets

Governmental activities net assets as of January 1, 2010 have been increased by \$2,157,072 over amounts previously reported due to retroactive reporting of intangible assets as required by the provisions of GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets," as interpreted.

2. DEPOSITS AND INVESTMENTS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds and other investments consistent with sound business practice.

The investment policy of the County adheres to applicable state statutes, including Act 72 and the County Code of Pennsylvania. The investment policy of the County permits the following types of investments:

- United States Treasury bills.
- Short-term obligations of the United States government or its agents or instrumentalities.
- Deposits in savings or time accounts or share accounts of financial institutions having their principal place of business in the state of Pennsylvania and are insured by the FDIC, FSLIC, NCUSIF, PDIC, or PSAIC and, for any amounts above the insured maximum, are collateralized as provided by law.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

- Obligations of the United States of America, the Commonwealth of Pennsylvania, or any political subdivision, or any of its respective agencies or instrumentalities, which are backed by the full faith and credit of the respective government unit.
- Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933, provided that the only investments of that company are in the authorized investments listed above.
- Certificates of deposit purchased from institutions having their principal place of business in the State of Pennsylvania and are insured by the FDIC, FSLIC, NCUSIF, PDIC, or PSAIC and, for any amounts above the insured maximum, are collateralized by a pledge or assignment of assets of the institution.

There were no deposit or investment transactions during the year that were in violation of either the statutes or the policy of the County.

GASB Statement No. 40, "Deposit and Investment Risk Disclosures," requires disclosures related to the following deposit and investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk, and foreign currency risk.

Deposits

The following is a description of the County's deposit risks:

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a formal policy for custodial credit risk. Of the bank balance of \$19,239,161 at December 31, 2010, \$759,994 was covered by the Federal Deposit Insurance Corporation, \$18,091,771 was collateralized in accordance with Act 72 of the Pennsylvania state legislature which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name, and \$387,396 was held by a third party, not in the name of the County. These amounts are invested in a U.S. government obligation fund and have maturities of one year or less. The fund invests primarily in a portfolio of short-term U.S. Treasury and government agency securities, including repurchase agreements collateralized fully by U.S. Treasury and government agency securities. These deposits include amounts with a book balance as of December 31, 2010 of \$18,797,477, which are reported as cash and cash

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

equivalents in the statement of net assets. This amount also includes \$55,490 in residents' funds as shown on the statement of net assets.

Agency Fund

The County maintains bank accounts for the elected row officers and other County offices. The balance of these accounts is reflected in the statement of fiduciary net assets. The carrying amount of deposits for the row offices and other County offices was \$3,790,343 and the bank balance was \$4,199,327. Of the bank balance, \$363,599 was covered by the Federal Deposit Insurance Corporation. The remaining balance of \$3,835,728 was collateralized in accordance with Act 72 of the Pennsylvania state legislature which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name.

Investments

As of December 31, 2010, the County held the following investment balances in the governmental funds:

			Maturity	in Years	
		Fair	Less	1-5	
	Market Value		than 1 year	years	
Mutual funds	\$	1,240,814	\$ 1,240,814	\$ -	
Total securities with maturities		1,240,814	\$ 1,240,814	\$ -	
Money market funds		301,575			
Total investments reported on the statement of net assets	\$	1,542,389			

Investments totaling \$790,246 recorded in the General Fund are restricted for workmen's compensation as required by the State of Pennsylvania guidelines for self-insurance.

The fair value of the County's investments is the same as their carrying amount.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Interest Rate Risk – The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Generally, the County's policy regarding maximum maturities is to match its investments' maturities with anticipated cash flow requirements.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of the failure of the entity in which the investments are held, the County will not be able to recover the value of its investments or collateral securities that are in the possession of the outside entity. The County does not have a formal investment policy for custodial credit risk. The County's investments in money markets and mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2010, the County's money markets and mutual fund balance of \$1,542,389 included in investments (bank and book balance) was exposed to custodial credit risk.

Credit Risk – The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The County has no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2010, all of the County's investments were not rated. The County's investments are in mutual funds and money markets.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in any one issuer. The County has no investments in excess of 5% with the same issuer.

Pension Trust Fund – Deposits

The pension trust fund deposits are held separately from those of other County funds. The pension trust fund cash and cash equivalents include checking and money market deposits (book value of \$3,959,708 at December 31, 2010) and accrued income (book value of \$205,560 at December 31, 2010). The bank balance of the checking and money market deposits as of December 31, 2010 was \$4,018,901, none of which was covered by the Federal Deposit Insurance Corporation but was collateralized in accordance with Act 72 of the Pennsylvania state legislature which requires the institution to pool collateral for all governmental deposits and has the collateral held by an approved custodian in the institution's name.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Pension Trust Fund – Investments

The pension trust fund investments are held separately from those of other County funds. Investments of the plan are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price. The County maintains a pension trust fund investment policy that summarizes the investment philosophy of the County and establishes investment guidelines and performance objectives for the pension trust fund.

As of December 31, 2010, the County had the following investments in its pension trust fund:

		Investment Maturities (In Years) from December 31			
	Fair	Less than	1-5	6-10	More than
Investment Type	Market Value	1 year	Years	Years	10 years
Bond mutual funds	\$ 32,808,730	\$ -	\$ -	\$ 16,963,084	\$15,845,646
Total debt securities	32,808,730	\$ -	\$ -	\$ 16,963,084	\$15,845,646
Money markets	733,391				
International equity funds	16,965,961				
Domestic equity funds	37,999,584				
Stocks	27,659,764				
Total other investments	83,358,700				
Total investments reported on the statement of fiduciary					
net assets	\$116,167,430				

The following is a description of the pension trust fund's investment risks:

Credit risk - The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The pension trust fund investment policy relating to credit risk is as follows:

Equity issues – There are no qualitative guidelines suggested with regard to equity ratings, rankings, etc., except that prudent standards should be developed and maintained by the investment managers. Convertible bonds

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

will be considered as an equity investment and must be rated investment grade (baa/BBB) or better by at least one crediting service, Moody's Investment Service (Moody's) or Standard & Poor's (S&P). Specific constraints include the avoidance of restricted issues, which have limited marketability, excluding SEC Rule 144A securities.

Fixed-income securities – Domestic bonds held in the core fixed-income portfolios must be rated investment grade (baa/BBB) or better by at least one crediting rating service, Moody's or S&P. This guideline is intended to give the core fixed-income investment manager sufficient latitude to periodically take advantage of bond swaps. SEC Rule 144A securities considered by the investment managers to be within policy guidelines are limited to 10% of the fixed-income portfolio. Core-fixed-income manager's portfolios should normally maintain an average market-weighted quality of 3.0 based on the following scale:

U.S. Government and Agencies	5.0
Aaa/AAA Bonds	4.0
Aa/AA Bonds	3.0
A/A Bonds	2.0
Baa/BBB Bonds	1.0

Cash equivalent vehicles - If commercial paper is used for short-term investments, it must be of high quality, rated at least the equivalent of A-1 or P-1 by Moody's or S&P.

As of December 31, 2010, the pension trust fund's investments in debt securities have received the following ratings from Moody's:

Investment Type	Moody's Rating	Percentage of Debt Securities
Bonds	AAA	78%
Bonds	AAA	3%
Bonds	A	9%
Bonds	BBB	10%
		100%

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Custodial Credit Risk - For deposits and investments, custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the pension trust funds will not be able to recover the value of their deposits or investments or collateral securities that are in the possession of an outside entity. The pension trust fund does not have a formal deposit or investment policy for custodial credit risk. The County's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2010, the County's money markets balance of \$733,391 included in investments (bank and book balance) was exposed to custodial credit risk.

Concentration of Credit Risk – The County requires that no more than five percent of a manager's equity portfolio may be invested in any one company (valued at cost), and no more than 10% of a manager's equity portfolio may be invested in any one company (valued at market). In addition, investments may not exceed the benchmark index by 20% of the GICS economic sector allocation of the appropriate benchmark. In addition, except for U.S. Treasury and Agency obligations, a managers fixed-income portfolio may not exceed more than 10% (valued at market) of a given domestic issuer. There were no investments in the pension trust fund that constituted more than five percent of any of the plan net assets available for benefits at December 31, 2010. In addition, the plan did not have any investment transactions with related parties during the year.

Interest Rate Risk – The maturities of the debt securities, as a means of managing its investment exposure to fair value losses arising from increases in interest rates, are at the discretion of the investment managers. However, the County's pension investment policy states that the effective duration of the fixed-income managers should be within 20% of the LB G/C Intermediate Index.

Foreign Currency Risk – The risk that changes in exchange rates will adversely affect the fair value of an investment is foreign currency risk. The County has no formal policy relating to foreign currency risk. The County's investment policy allows for investments in international equities ranging from 7-13% of the portfolio with a target of 10%. International securities may include: equity alternatives, common stock listed on a recognized security exchange, OTC Common Stock, American Depository Receipts (ADRs), European Depository Receipts (EDRs), Convertible bonds, preferred stock, non-voting stock if the risk/return characteristics are favorable versus the underlying common equity, and currency hedging. At December 31, 2010, the County had \$16,965,961 invested in international equity mutual funds and did not hold any material foreign currency.

4. REAL ESTATE TAXES

Real estate taxes attach as an enforceable lien on property as of January 1 and are levied on March 1. These taxes are billed by the County and collected by elected tax collectors. Taxes paid through April 30 are reduced by a 2% discount. Amounts paid after June 30 are assessed a 10% penalty. The County collects delinquent real estate taxes on behalf of itself and other taxing authorities.

The County is permitted by the County Code of Pennsylvania to levy real estate taxes up to 25 mills on every dollar of assessed valuation for general County purposes and the rate of taxation for payment of interest and principal on any indebtedness shall be unlimited. Effective January 1, 2010, assessed values are computed at 100% of estimated 1969 valuations. For 2010, County real estate taxes were levied at the rate of 23.628 mills on assessed valuation. Of the total millage rate of 23.628 mills, 19.688 mills are allocated for general purposes, and 3.94 mills for debt service. Total assessed valuation for non-exempt properties in 2010 was approximately \$1.63 billion.

Emergency Communications 911				-	
and Wireless 911	615,496	134,162	408,285		
	\$ 7,220,817	\$ 7,220,817	\$ 9,020,637	\$ 9,020,637	

All interfund balances between governmental activities and agency activities are eliminated. All other interfund amounts remaining are reflected as internal balances.

The purpose of the majority of interfund payable amounts due is for short-term advances made to programs that are funded on a monthly and quarterly basis.

The majority of transfers out of the General Fund represent the County's required contribution to various programs based upon Department of Public Welfare requirements and transfers of funds to the Operating Reserve Fund.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

7. BUTLER COUNTY EMPLOYEES' RETIREMENT SYSTEM

<u>Plan Description</u>

The Butler County Employees' Retirement System (plan), as administrated by the County, is a single employer defined benefit pension plan governed by the County Pension Law Act 96 (Act) of 1971, as amended, enacted by the General Assembly of the Commonwealth of Pennsylvania. The plan is reported as the Employees' Retirement Fund in the accompanying financial statements. Separate plan financial statements are not available.

All full-time County employees become plan participants immediately upon becoming an employee. Membership in the plan is optional for elected officials. The plan requires each member to contribute a percentage of their salary to the plan. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

At January 1, 2010, the date of the most recent valuation, participants in the plans were as follows:

Participants:

Retirees and beneficiaries	382
Deferred vested	44
Active employees:	
Vested	591
Nonvested	176

Summary of Significant Accounting Policies

Financial information of the County plan is presented on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due as required by the Act. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments of the plan are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

rates. Investments that do not have an established market are reported at estimated fair values.

At December 31, 2010, there were no individual investments that are required to be disclosed that constituted more than 5% of any of the plan net assets available for benefits. In addition, the plan did not have any investment transactions with related parties during the year.

Contributions and Funding Policy

The plan funding policy provides for periodic employer contributions at actuarially determined rates, that expressed as a percentage of annual covered payroll, are sufficient to accumulate assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age normal funding method and the same actuarial assumptions is used to calculate the net pension obligation.

As a condition of participation, employees are to contribute 6% to 19% (currently 9%) of their salary as stipulated in the Act. Interest is credited to employee accounts each year at an annual rate of 5.5% as voted upon by the County Retirement Board.

In 2010, the County's annual required contribution to the plan was \$6,095,561 as determined by the January 1, 2010 actuarial valuation. The 2010 employee contributions were \$3,211,924.

Administrative costs, including investment, custodial trustee, and actuarial services are charged to the plan and funded from investment earnings.

The County's annual pension cost and related information is as follows:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Annual pension cost \$6,095,561

Contributions made \$6,095,561

Actuarial valuation date 1/1/2010

Actuarial cost method Entry Age Normal

Greater of Market Value

Asset valuation method and

Actuarial Value

Amortization method Level Percentage of

Projected Payroll - Closed

Amortization period 9 years

Actuarial assumptions:

Investment rate of return* 7.5% Projected salary increases* 3.5%

Cost of living adjustments 100% change in C.P.I.

The County does not have a net pension obligation (NPO) as of December 31, 2010.

Effective January 1, 2010, the salary assumption and the asset valuation method have been changed. The effect of changing the salary assumption from 4.5% to 3.5% is that the actuarial accrued liability has decreased \$5,905,887. The effect of changing the asset valuation method from five year smoothing to the method approved by the legislature under Act 44 is that the actuarial value of assets has increased by \$7,397,011. The County recognizes the fact that the resulting lower current annual required contribution (ARC) may be at the expense of higher future ARCs.

^{*} Includes inflation at 3%.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Trend Information

	Annual	Percentage	Net Pension	
	Pension	of APC	Obligation	
Year Ending	Cost (APC)	Contributed	(Asset)	
12/31/2008	\$ 4,712,669	100.0%	\$ -	
12/31/2009	6,486,486	100.0%	-	
12/31/2010	6,095,561	100.0%	-	

Funded Status

The County's funded status and related information for each plan as of the latest actuarial valuation date, January 1, 2010, is as follows:

	Actuarial	Excess of			Excess (Deficiency)
Actuarial	Accrued	Assets			as a Percentage
Value of	Liability (AAL)	Over (Under)	Funded	Covered	of Covered
Assets	Entry Age	AAL	Ratio	Payroll	Payrol1
\$111,030,976	\$148,852,958	\$(37,821,982)	74.59%	\$31,576,155	(119.78)%

The required schedule of funding progress included as required supplementary information immediately following the notes to financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

As noted above, certain pension information and calculations are based upon an actuarial valuation performed as of January 1, 2010. The next actuarial valuation will be performed as of January 1, 2011 and will take into account subsequent changes in the market value of investments being held in the plan.

8. DEBT

Tax Anticipation Note

In January 2010, the County issued a tax and revenue anticipation note in the amount of \$6.5 million. The note was paid in full by December 31, 2010.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Capital Bond Issue 2006

In July 2006, the County issued \$10,215,000 in General Obligation Bonds (2006) Bonds), of which \$4,860,000 was used to advance refund a portion of the Series of 2003 Bonds. In connection with this advance refunding, a portion of the proceeds was deposited into an irrevocable trust with an escrow agent to provide for certain debt service payments on the refunded debt. The advance refunding resulted in a future decrease in cash flows of approximately \$1,100,000 and an economic gain of approximately \$70,000. The defeased debt outstanding on the Capital Bond Issue 2003 as of December 31, 2010 is \$3,965,000. An additional \$998,269 was used to current refund a portion of the Series of 2002 Bonds. \$4,000,000 of the 2006 Bonds proceeds were used to fund the costs of miscellaneous capital expenditures, including providing capital for the completion of the County's prison, acquisition of voting machines, Phase 1 and 2 recreational improvements of Alameda Park, and various capital projects at the government center and Sunnyview Nursing Home. \$625,000 of the 2006 Bond proceeds were allocated to Sunnyview Nursing Home. The 2006 Bonds, whose last scheduled debt maturity is July 15, 2024, have interest rates that range between 4.00% and 5.00%.

Capital Bond Issue 2004

In March 2004, the County issued \$46,825,000 in General Obligation Bonds (2004 Bonds), of which \$45,309,000 was used to advance refund the majority of outstanding Series of 2003 Bonds (2003 Bonds). The defeased debt outstanding on the 2003 Bond Series at December 31, 2010 is \$40,760,000. \$5,550,000 of the 2004 Bonds proceeds were allocated to the Emergency Communications 911 Proprietary Fund for use in the construction of a new 911 Center. The 2004 Bonds, whose last scheduled debt maturity is July 15, 2026, have interest rates that vary between 2.00% and 5.00%.

Capital Bond Issue 2003

In July 2003, the County issued \$48,920,000 in General Obligation Bonds. \$6,000,000 of the 2003 Bonds proceeds were allocated to the Emergency Communications 911 Proprietary Fund for use in the construction of a new 911 Center; this allocation was advanced refunded by the 2004 Bonds. The remaining portion of the 2003 Bonds was used for various other capital projects. The 2003 Bonds, whose last scheduled debt maturity was July 15, 2010, had interest rates that vary between 2.00% and 5.25%.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Capital Bond Issue 2002

In July 2002, the County issued the Series 2002 General Obligation Bonds (2002 Bonds) for \$12,695,000. The 2002 Bonds proceeds were used to refund a portion of the County's Series 1992 General Obligation Bonds (1992 Bonds). The 2002 Bonds, whose last scheduled debt maturity is July 15, 2012, have an interest rate of 6.00%.

Capital Bond Issue 2001

In January 2001, the County issued the Series 2001 General Obligation Bonds (2001 Bonds) for \$1,885,000. The Bond proceeds were used to: 1) refund a portion of the County's General Obligation Bonds, Series of 1992 (\$1,695,000) and 2) pay the costs related to the issuance of the 2001 Bonds. The 2001 Bonds, whose last scheduled debt maturity is July 15, 2012, range in interest rates from 4.10% to 4.75%.

Capital Reserve Note

The 2000 Capital Reserve Note was issued for \$2,000,000 for the renovation of the prison annex and other capital projects. The note will be amortized over a ten year period with quarterly payments of \$62,220 including interest at a fixed rate of 4.45% per annum.

The County has evaluated its debt obligations for arbitrage regulations. No liability has been determined.

The County's general obligation debt payable at December 31, 2010, comprises the following individual issues:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Series	Interest Rates	Final Maturity	(Total Debt Dutstanding
Capital bond issue 2006	4.00% - 5.00%	2024	\$	8,925,000
Capital bond issue 2004	2.00% - 5.00%	2026		43,950,000

2015	2,755,000	1,881,002	440,000	84,400		
2016-2020	16,835,000	7,394,435	1,445,000	121,800		
2021-2025	20,620,000	3,400,698	-	-		
2026	3,805,000	161,712				
	\$ 53,240,000	\$ 21,456,447	\$ 4,115,000	\$ 770,238		

Changes in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2010 was as follows:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Governmental Activities		Balance at ecember 31, 2009	Additions]	Reductions	Balance at ecember 31, 2010	_	Oue Within One Year
Workmen's compensation Compensated absences Capital reserve note	\$	715,573 2,009,545 61,536	\$ 277,372 1,463,488	\$	(202,699) (1,443,267) (61,536)	\$ 790,246 2,029,766	\$	202,699 1,461,625
Bonds payable		54,780,000	-		(1,540,000)	53,240,000		2,185,000
Long-term liabilities	\$	57,566,654	\$ 1,740,860	\$	(3,247,502)	\$ 56,060,012	\$	3,849,324
Business-Type Activities	Balance at December 31, 2009		 Additions]	Reductions	Balance at ecember 31, 2010	_	Oue Within One Year
Compensated absences Bonds payable	\$	763,841 4,875,000	\$ 571,836	\$	(566,278) (760,000)	\$ 769,399 4,115,000	\$	580,187 480,000
Long-term liabilities	\$	5,638,841	\$ 571,836	\$	(1,326,278)	\$ 4,884,399	\$	1,060,187

The liability for compensated absences is liquidated from the governmental funds where the corresponding payroll costs for the employees are allocated. The liability for workmen's compensation is liquidated from the General Fund.

9. SELF-INSURANCE

The County of Butler is self-insured for its workers compensation and occupational disease liability as permitted by the Pennsylvania Workers Compensation Act (the "Act"), 77 P.S. p.1 et. Seq. The County of Butler has long been granted an exemption from the necessity of insuring its liability to pay compensation under the Act, such exemption being commonly referred to as self-insured status. In order to continue to remain in self-insured status, the County secures the payment of benefits under the Act in accordance with section 501 of the Act and applicable regulations.

On a regular basis, the Pennsylvania Department of Labor and Industry, Bureau of Workers Compensation Division, calculates the funding status of the County of Butler's Workers Compensation dedicated asset account. This dedicated asset account must meet the required asset level as prescribed by applicable regulations. The County has recently received exemption from the Department of Labor form the necessity of insuring its liability to pay compensation as provided for and subject to the Act and authorized it to operate as a self-insurer for the period of February 1, 2011 to January 1, 2012. The State has changed the beginning of the future annual

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

self-insurance periods to January 1, the beginning of the County's fiscal year. This realignment will enable the State to monitor the filing of each renewal applicant.

The outstanding liability is calculated based on taking an average of the last three years' outstanding liabilities. The average calculation took into consideration any change in the number of claims between years and any change in the number of long-term claims. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

The dedicated asset account balance at December 31, 2010 of \$1,542,389 is in excess of the Department's requirements. Current claims are expensed as paid by the related fund. Workmen's compensation claims paid during 2010 were \$202,699. The liability for claims outstanding at December 31, 2010 was \$790,246.

The following represents changes in those aggregate liabilities for workmen's compensation during the past year:

	2010	 2009
Unpaid claims and claim adjustment expenses at beginning of year	\$ 715,573	\$ 803,606
Incurred claims and claim adjustments	277,372	113,028
Payments on claims and claim adjustment expenses: Claims and claim adjustment expenses attributable to insured events of current year	76,549	47,376
Claims and claim adjustment expenses attributable to insured events of prior years	126,150	 153,685
Total payments	202,699	201,061
Total unpaid claims and claim adjustment expenses at end of year	\$ 790,246	\$ 715,573

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

10. LEASES

Mental Health Residential Facility

In December 2003, the County entered into an Enhanced-Use Lease with the U.S. Department of Veterans Affairs (Department) for approximately 1.3 acres of land in order to enable the Butler County MH/MR to construct a 16-bed mental health residential facility (Facility) on the Veterans Administration Medical Center (VAMC) grounds. The term of the lease is 50 years. The terms of the lease require the County to construct the Facility within two years of the approval of the lease; the Facility was completed in 2005. The VAMC is to have priority placement for two beds (730 bed days of care) per calendar year. The terms of the lease also require the County to establish a "funded maintenance account" on the 1st day of "lease-up" (i.e. when the first referred veteran is at the Facility) in an amount equal to \$2.00/sq ft per year for the rentable area of the facility, but not in excess of \$22,000. During the term of the lease, the County is to pay the Department for all ancillary services (actual cost of food, laundry, housekeeping, pest control) on a monthly basis. The County pays for all costs of operation. At the termination of the lease, the Facility and permanent improvements become the property of the Department.

Tier Garage

In March 2005, the County entered into a three-year lease agreement for 9,688 square feet of space for temporary housing of prisoners. The County renewed the lease for an additional five years beginning on July 1, 2008 at the same rate of \$10 per square foot (\$96,980 annually). As the construction of the new prison eliminated the need of the space for temporary housing of prisoners, the space will now be utilized to house the County's Adult Probation offices. The County has the option to renew for an additional five years at the annual rental adjusted to reflect the percentage increase in the Consumer Price Index for the preceding 60-month period.

District Justice Offices

The County has leases for four of the District Justice offices, of varying amounts and terms.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Future Minimal Rental Payments

The following is a schedule, by years, of future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2010:

Years	Total
2011	\$ 164,413
2012	165,999
2013	117,658
2014	63,384
2015	65,167
Thereafter	142,461
Total minimum payments required	\$ 719,082

11. COMMITMENTS AND CONTINGENCIES

Revenues provided to the County by the state and federal governments are subject to audit by respective grantor agencies. Potential reimbursements may be required as a result of such audits. No provision has been made for potential reimbursements in the financial statements as material amounts are considered to be unlikely.

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

The County is insured for various types of insurance including the following: general liability, business, auto, crime, law enforcement liability, public officials liability, and property insurance. Deductibles range from \$1,000 to \$25,000 per claim or occurrence. Maximum limits for general liability, auto, public officials, and law enforcement are \$5,000,000 per occurrence. The maximum limit for crime coverage is \$1,000,000 per occurrence. Property is covered on the total insured value subject to a \$350 million limit per occurrence and equipment breakdown is insured at \$100 million per accident.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

There are various other matters of pending litigation in which the County is involved. The County Solicitor believes that it is unlikely such matters would significantly affect the financial position of the County. Accordingly, the financial statements do not include any adjustment for possible effects, except for approximately \$272,000 in waste management fees that have been reported as deferred revenue, and which was the subject of dispute/discussion with current waste haulers. It is anticipated that management will release these funds as part of the 2011 budget process.

New Prison

Currently, the County is involved in legal actions in the Butler County Court of Common Pleas relating to the construction of the new Butler County Prison. Clista Electric and Enders Plumbing have sued the County relative to their alleged damages in the Construction; the County has joined Travelers Casualty and Surety and A.G. Cullen, Inc. as additional defendants. Discovery is proceeding, but the County believes it will successfully defend its actions related to the prison and has made no provision in the financial statements for the litigation.

Guaranteed Loan

As part of a local retail department store's (store) bankruptcy reorganization, the County closed on a Section 108 loan on behalf of the store in the amount of \$5.8 million in May 2009. The store is responsible for repayment of this loan, but the County was required to pledge future Community Development Block Grant allocations for the life of the loan to be used in the event of default by the local retail department store. The loan is required to be repaid over the next 20 years.

12. Subsequent Events

The County Commissioners approved a \$186.9 million budget for 2011 with no change in the property tax rate of 23.628 mills.

In January 2011, the County issued a tax anticipation note in the amount of \$5 million. It is intended that the note will be repaid during 2011.

In February 2011, the County entered into an oil and gas lease for a primary term of five years. As part of this lease agreement the County will receive an up-front payment in excess of \$600,000. As acceptable gas is extracted from the property, the County will receive an 18% royalty of the proceeds received for all gas produced,

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

metered and sold, less the lessor's pro-rata share of any severance or excise tax imposed by any governmental body.

B. BUTLER COUNTY COMMUNITY COLLEGE

1. ORGANIZATION

The Butler County Community College (BCCC), chartered in 1965, was the first community college in Western Pennsylvania. On September 26, 1966, BCCC opened its doors to 242 day and 190 evening students. During the current fiscal year, more than 6,313 students were enrolled in credit programs and another 12,873 people took part in the many other educational opportunities available on the BCCC main campus, and the Cranberry, Lawrence, and Mercer sites. BCCC is dedicated to providing quality and comprehensive educational opportunities accessible to all that can benefit.

Reporting Entity

BCCC is a component unit of the County of Butler (County), Pennsylvania. The Commissioners of the County appoint all members of the governing Board of Trustees (Board) of BCCC. As sponsor of BCCC, the County provides funding for up to one-third of operating expenses and one-half of the capital expenses. In addition, the County's approval is required for the issuance of any bonded debt by BCCC as the County is legally committed for a portion of the repayment of such debt.

In evaluating BCCC as a reporting entity in accordance with the Governmental Accounting Standards Board (GASB), management has addressed all potential component units. Consistent with applicable guidance, the criteria used by BCCC to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given situation, BCCC reviews the applicability of the following criteria:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

- 2. The primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- 3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or have the ability otherwise access, are significant to that primary government.

Following is a brief description of the component unit meeting the above criteria, which is included within the financial reporting entity:

Butler County Community College Educational Foundation (Foundation)

The Foundation is a non-profit organization incorporated on October 1, 1985. The purpose of the Foundation is to promote the educational efforts of BCCC. A sixteen-member Board of Directors governs the Foundation. The President of BCCC is a member of the Board of Directors and the Executive Director of the Foundation is an employee of BCCC. Separate financial statements of the Foundation are prepared and can be obtained through the Foundation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of BCCC have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. GASB is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. In applying the provisions of GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds," BCCC applies all GASB pronouncements and all Financial Accounting Standards Board (FASB) pronouncements, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements.

Basis of Accounting

The financial statements of BCCC have been prepared on the accrual basis. Accordingly, revenues are recorded when earned and expenses are recognized when the liability is incurred. BCCC records student receivables at the time of registration

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

for classes. As of June 30, 2010, BCCC determines the portion of the receivable and the tuition that has been paid that relates to classes that will take place after June 30. This amount is reported as deferred revenue.

Operating revenues and expenses consist of those revenues and expenses that result from ongoing principal operations of BCCC. Operating revenues consist of tuition and fees and government grants. Nonoperating revenues and expenses consist of those revenues and expenses relating to subsidies and capital items.

The Foundation's policy is to prepare its financial statements on the accrual basis of accounting. Under this basis, revenues are recognized when earned and expenses are recognized when incurred. If an expenditure results in the acquisition of an asset having an estimated useful life which extends substantially beyond the year of acquisition, the expenditure is capitalized and depreciated or amortized over the estimated useful life of the asset.

Financial Reporting

In accordance with GASB Statement No. 35, "Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities," BCCC elects to report its activity as "business-type activities only" financial statements.

Net Assets

Net assets are classified into three captions:

Invested in Capital Assets, Net of Related Debt

This component of net assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of bonds and capital leases that are attributable to the acquisition, construction, and improvement of the capital assets.

Restricted

Restricted net assets include net assets that have constraints placed on the assets imposed through external regulations, sources, or by law. Two categories are used to further describe restricted net assets:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Expendable – can be expended in compliance with the external restriction

Nonexpendable – are net assets that are required to be retained in perpetuity

Expendable restricted net assets at June 30, 2010 of BCCC consist of: (1) \$110,062 of escrow funds remaining that were required to be posted by a local municipality in lieu of a letter of credit during the construction of the Student Services Building and (2) \$4,559,637 related to the support agreement receivable.

Net assets related to the Foundation are described in Note 9 of Section B.

Unrestricted

Consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

BCCC uses restricted resources, when available, before using unrestricted resources to pay expenditures.

Inventory

Inventory consisting of books and merchandise held for sale in the bookstore is stated at average cost and is expensed as sold or used.

Allowance for Uncollectible Receivables

BCCC maintains the most current two academic years as student receivables. All other student receivables are considered to be uncollectable and are written off. During the year, BCCC wrote off \$93,367 of receivables considered to be uncollectible.

Capital Assets and Depreciation

Physical plant and equipment are stated at cost at date of acquisition or fair market value at date of donation in the case of gifts. Depreciation on assets has been provided using the straight-line method over the estimated useful lives, as follows:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Buildings	30-60 years
Furniture and fixtures	15-20 years
Library reference materials and books	5 years
Maintenance equipment	10 years
Office and computer equipment	5-10 years
Vehicles	2-5 years

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Accounting Pronouncements

BCCC implemented GASB Statement No. 45 "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions," effective June 30, 2008, to be consistent with the County's implementation. Participating employers, upon their implementation of the related GASB Statement No. 45, are required to disclose additional information with regard to funding policy, the employer's annual OPEB costs and contributions made, the funded status and funding progress of the employer's individual plan, and actuarial methods and assumptions used. The obligation under this implementation is immaterial to the financial statements as a whole as of June 30, 2010. Therefore, the liability has not been recorded. The last year that this OPEB will be an obligation to the employer is fiscal year 2011, as BCCC no longer offers postemployment benefit plans other than pension plans.

Investments

Investments purchased by BCCC consist of U.S. Government Obligations and are carried at fair value. Investments of the Foundation are reported at fair value with the exception of stock held in a non-publicly traded entity as discussed in Note 3 of Section B.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Refunding Transactions

In accordance with GASB Statement No. 23, "Accounting and Reporting for Refunding of Debt for Proprietary Activities," the excess of the reacquisition price over the net carrying amount of refunded debt is recorded as a reduction to long-term debt on the statement of net assets and amortized over the shorter of the term of the refunding issue or refunded bonds.

3. DEPOSITS AND INVESTMENTS

Deposits

Under Section 440.1 of the Pennsylvania Public School Code for 1949, as amended, BCCC is permitted to invest funds consistent with sound business practices in the following types of investments:

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Deposits in savings accounts, time deposits, or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.

The deposit and investment policy of BCCC adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of BCCC.

Credit risk. The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The majority of BCCC's investments is in U.S. Government Obligations and is therefore not exposed to this type of risk.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At yearend, the carrying amount of BCCC's cash and deposits was \$7,428,810 and the

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

related bank balances totaled \$8,161,880, of which \$575,194 was covered by federal depository insurance. The remaining balance was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have collateral held by an approved custodian in the institution's name.

Additionally, at year-end, the carrying amount of the Foundation's cash and deposits was \$603,259 and the related bank balance totaled \$601,248, of which \$488,248 was covered by federal depository insurance. The financial institution holding the Foundation's uninsured cash balances has pledged assets in a coverage ratio of 1.18%. For every one dollar in uninsured public funds, the financial institution has pledged \$1.18 in assets. The pledged assets are held in safekeeping at two different federal banking facilities. Cash and cash equivalents include funds being held in highly liquid money market mutual funds that are invested in governmental debt securities, with maturities from the date of purchase of three months or less.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year-end, the carrying amount of BCCC's investments (current and non-current) was \$3,582,470.

BCCC's investments at June 30, 2010 are composed of the following:

Mutual funds	\$ 2,909,684
Cash equivalent investments	 672,786
	\$ 3,582,470

At year-end, \$600,876 of the cash equivalent investments was covered by federal depository insurance. \$71,910 of the investments above was collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have collateral held by an approved custodian in the institution's name. The remaining \$2,909,684 of BCCC's investments are not insured or registered and are held by the financial institution's trust department or agent, but are not in BCCC's name.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near-term and that such changes could materially affect the amount reported on the

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

statement of net assets.

The Foundation's investments at December 31, 2010 are composed of the following:

Bonds	\$ 724,890
U.S. government agencies	100,103
Mutual funds	49,672
Common stock	1,090,999
Cash equivalent investments	213,552
	\$ 2,179,216

Other than U.S. government agency investments, the Foundation's investments are not insured or registered and are held by the financial institution's trust department or agent, but are not in the Foundation's name. Those amounts identified above as cash equivalent investments include funds being held in highly liquid money market mutual funds that are invested in governmental debt securities with maturities from the date of purchase of three months or less.

The Foundation also owns shares of donated stock of a non-publicly traded company. The stock is not recorded on the financial statements because market valuation is not readily determinable. At June 30, 2010, the Foundation held 143,220 shares of stock in the entity. Each share of stock is purported to have a value of \$3.85 as of June 30, 2010. When the Foundation liquidates the stock, it will record the sale proceeds at the time of liquidation.

Subsequent to year-end, the Foundation sold 75,000 shares of the donated stock for \$112,500 which will be recognized as revenue during the 2010-2011 fiscal year.

4. BONDS PAYABLE

Long-term debt consists of the following:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

	Balance at June 30, 2009	Payments	Accretion	Balance at June 30, 2010	Due within one year
General obligation bonds:					
Series D of 2000	\$ 2,223,834	\$ (520,000)	\$ 53,079	\$ 1,756,913	\$ 370,000
Series G of 2000	3,619,688	(90,000)	206,788	3,736,476	95,000
Series A of 2001	13,405,000	(75,000)	-	13,330,000	395,000
2002 refunding	255,000	(255,000)	-	-	-
Series A & B of 2008	8,630,000	(250,000)		8,380,000	260,000
	\$ 28,133,522	\$ (1,190,000)	\$ 259,867	27,203,389	\$ 1,120,000
		Una	accreted interest	5,806,611	
				\$ 33,010,000	

Amounts above do not reflect an original issue discount in the amount of \$187,053 for the bonds and a deferred refunding loss of \$783,173. These amounts are amortized using the straight-line method.

In March 2000, the State Public School Building Authority (SPSBA) undertook the financing of a project on behalf of BCCC with the proceeds of bonds in the amount of \$16,533,643. The proceeds of Series D of 2000 (Series D) Bonds were used to finance the construction of a new science/technology building which includes classrooms, labs, theatre, cultural center, and other capital projects such as campuswide networking, paving, HVAC, roofing projects, and various other projects. In addition, a Fire Science Training Center was constructed including classrooms, training tower, controlled-burn building, and training pad. Approximately, \$2,470,000 of the proceeds was used to defease the 1992 Series L Bonds. During 2001, BCCC defeased a portion of the Series D Bonds with the issuance of Series A of 2001 (Series A) Bonds as described below. The interest rates on the bonds range from 4.5% to 6.30% with the final bonds maturing June 30, 2030. The amount of defeased debt outstanding as of June 30, 2010 was \$11,135,000.

During 2001, the SPSBA and BCCC issued Series G of 2000 (Series G) Bonds in the amount of \$4,121,861. The Series G Bonds include current interest bonds in the amount of \$2,060,000 and capital appreciation bonds in the amount of \$2,061,861. The Series G Bonds were issued to cover additional costs associated with the construction of the science/technology building. The interest rates on the Series G

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Bonds range from 4.5% to 6.0% with the bonds maturing from 2022 to 2031. A portion of these bonds was defeased with the issuance of the Series A Bonds as described below. The amount of defeased debt outstanding as of June 30, 2010 was \$1,280,000.

In March of 2001, the SPSBA and BCCC issued Series A Bonds in the amount of \$13,925,000. These Series A Bonds were issued to refund a portion of the Series D and Series G Bonds. The interest rates on the bonds range from 3.25% to 5.0% with the bonds maturing from 2001 until 2029. Proceeds of the issuance of approximately \$200,000 were used to cover additional costs associated with the construction of the science/technology building. BCCC incurred a deferred refunding loss that is being amortized over the life of the issue using the straight line method. During the year, BCCC recognized \$41,599 of amortization expense and had an unamortized balance related to the issue of \$783,173 at June 30, 2010.

The SPSBA and BCCC issued Refunding Series of 2002 Bonds (Refunding Series) in the amount of \$1,810,000. These Refunding Series Bonds were issued to refund the Series M of 1992. The interest rates on the bonds range from 3.0% to 3.85% with the bonds maturing from 2003 until 2010.

In February 2008, the SPSBA and BCCC issued Series A and B bonds in the amount of \$8,875,000. The Series A Bonds and the Series B Bonds are being issued on behalf of BCCC to pay all or a portion of the costs of: (1) constructing and furnishing a new Student Services Building on BCCC's campus; (2) various other capital improvements to BCCC's facilities; and (3) certain costs of issuing the Bonds. The interest rates on the bonds range from 3.00% to 4.57% with the bonds maturing in 2037. During the year, BCCC paid interest of \$345,175 along with principal payments of \$250,000.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

The scheduled retirement of bonds is as follows:

	Principal	Interest		Total	
2011	\$ 1,120,000	\$	1,023,872	\$ 2,143,872	
2012	1,160,000		972,741	2,132,741	
2013	1,215,000		920,925	2,135,925	
2014	1,140,000		876,763	2,016,763	
2015	1,170,000		841,226	2,011,226	
2016 to 2020	6,545,000		3,498,113	10,043,113	
2021 to 2025	8,725,000		2,092,531	10,817,531	
2026 to 2030	9,405,000		946,095	10,351,095	
2031 to 2035	2,020,000		261,800	2,281,800	
2036 to 2037	510,000		33,880	543,880	
	33,010,000	\$	11,467,946	\$ 44,477,946	
Less unaccreted interest	(5,806,611)				
	\$ 27,203,389				

In February of 2010, the Foundation authorized the Mortgage Revenue Drawdown Note, Series of 2010 in the aggregate principal amount of \$2,940,000, to assist with the construction costs of the LindenPointe expansion project. The 2010 Note bears an interest rate of the Federal Home Loan Bank (FHLB) rate plus 2.50%, fixed for the first five years, then reset to the current FHLB rate plus 2.50% for the next five years, with a final one year reset to the then-existing FHLB rate plus 2.50%. The Note matures in 2021. The interest rate at June 30, 2010 approximated 3.80%. Interest-only payments are made until the completion of the project. Upon completion of the project, draw downs will cease and principal payments will become due. As of June 30, 2010, \$1,650,325 of the \$2,940,000 Note has been drawn down.

5. PENSION AND RETIREMENT PLANS

Plan Description

BCCC contributed to a governmental cost-sharing multiple-employer defined benefit pension plan (Plan) administered by the Public School Employees' Retirement System (PSERS). Benefit provisions of the Plan are established under the provisions

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

of the Public School Employees' Retirement Code (Code) (Act No. 96 of October 2, 1975, as amended) (24 Pa. C.S. 8101-8535) and may be amended by an act of the Pennsylvania State Legislature. The Plan provides retirement and disability, legislatively mandated ad hoc cost-of-living adjustments, and healthcare insurance premium assistance to qualifying annuitants. PSERS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by writing to the Bureau of Fiscal Control, PSERS, P.O. Box 125, Harrisburg, PA 17108-0125.

Funding Policy

Contributions are required by active members, colleges, and the Commonwealth of Pennsylvania as established by the PSERS Board in accordance with the Code. Employees must contribute 5.25% or 6.50%, based on the employee's PSERS election of membership class, of their regular monthly compensation if they began participation in the plan prior to July 22, 1983, or 6.25% or 7.50%, based on the employee's PSERS election of membership class, if their participation began after July 22, 1983. Employees hired after July 1, 2001, contribute 7.50% of their regular monthly compensation.

BCCC's contribution shall be at a rate determined annually by PSERS. BCCC's contribution rate for the fiscal year ended June 30, 2010 was 2.39% and the Commonwealth of Pennsylvania contributed an additional 2.39% of covered payroll. This aggregate rate of 4.78% is composed of a pension contribution rate of 4% for pension benefits and 0.78% for healthcare insurance premium assistance. These rates are expected to increase in future years.

During fiscal year 2010, BCCC contributed \$94,743, which was equal to its required contribution for the year. In accordance with Act 29, the Commonwealth of Pennsylvania also contributes an amount equal to that contributed by BCCC.

Teachers Insurance and Annuity Association/College Retirement Equities Fund

All regular BCCC employees who are classified as staff-exempt, faculty, or other academic may enroll in an optional retirement plan through the Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF). This is in lieu of participation in the PSERS Board plan as detailed above. Employees electing TIAA-CREF contributed 5.25% of their regular monthly compensation if they began participation in the plan prior to July 22, 1983, or 6.25% if their

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

participation began after July 22, 1983. BCCC's contribution rate for the fiscal year ended June 30, 2010 was 10%.

During fiscal year 2010, BCCC contributed \$751,733 to this plan. The participants have personal contracts with TIAA-CREF and personally own annuities. This full vesting allows participants to transfer to other employers that participate in TIAA-CREF and continue to accumulate retirement benefits. The optional Retirement Plan offered through TIAA-CREF is a Defined Contribution Plan. Accordingly, benefits depend solely on amounts contributed to the Defined Contribution Plan plus investment earnings.

6. ACCUMULATED COMPENSATED ABSENCES

Accumulated compensated absences were comprised of the following at June 30, 2010:

Early	Accumulated	Accumulated Unused	
Retirement Sick		Vacation	
Incentive	Leave	Pay	Total
\$ 75,000	\$ 684,844	\$ 195,777	\$955,621

All amounts above are assumed to be long-term.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

7. CAPITAL ASSETS

BCCC's capital asset balances at June 30, 2010 consisted of the following:

	Balance at			Balance at
	June 30, 2009	Additions	Deletions	June 30, 2010
Capital assets, not being depreciated:

Net capital assets	\$ 1,344,552	\$ 2,107,267	\$ -	\$ 3,451,819	

8. Insurance

BCCC is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. BCCC maintains insurance through an independent insurance carrier for these types of business losses. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years. There have been no significant changes in insurance coverage since the prior fiscal year. Management believes the insurance coverage is sufficient to cover BCCC against potential losses.

9. BUTLER COUNTY COMMUNITY COLLEGE EDUCATION FOUNDATION

The Foundation is a non-profit Pennsylvania corporation. It is organized and operated exclusively for educational and cultural purposes to assist in developing and fostering scholarship and charitable activities. A sixteen-member Board of Directors that oversees the holding, investing, managing, and awarding of Foundation assets

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

heads the Foundation. The Internal Revenue Service considers the Foundation exempt from taxes under Section 501(c)(3) of the Internal Revenue Code.

The Foundation reports under FASB standards, including FASB Statement No. 117, "Financial Reporting for Not-for-Profit Organizations." As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. Minimal modifications have been made to the Foundation's financial information in BCCC's reporting entity for those differences as the differences were not significant to the reporting entity.

Support Agreement

The Foundation has made a committed effort to make capital improvements to BCCC and as a part of that commitment in October 2000, BCCC entered into a support agreement with the Foundation. Funding was provided beginning in fiscal year 2001-2002 and will end in fiscal year 2030-2031. The support agreement outlines the minimum yearly contributions BCCC will receive from the Foundation. Below is the schedule of minimum payments that are to be made under the support agreement:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Fiscal Year	 Amount
2010-2011 2011-2012	\$ 123,700 122,100
2012-2013	122,200
2013-2014 2014-2015	127,000 127,000
Thereafter	 10,913,700
	\$ 11,535,700

As a result of the support agreement, BCCC has recorded a receivable at net present value in the amount of \$4,559,704.

In November 2000, the Foundation entered into an investment agreement with a financial institution to provide funds to meet its obligation to make the minimum payments to BCCC. The investment agreement required that the Foundation make a one-time payment of \$3,200,000; in return, they would receive payments totaling \$12,627,189 through 2031. The payments are guaranteed only by the financial institution and are not insured. The investment is required to be collateralized if the financial institution's S&P or Moody's rating is downgraded. During the year, the investment rating was below the required rating level and was required to be collateralized. When the rating was downgraded, the Foundation entered into a collateral agreement in which a third party provided collateral in the amount of 105% of the investment value. The collateral assets are comprised of U.S. Treasury Securities and held in the name of the Foundation by a Trustee. The collateral agreement ceases to exist if the S&P or Moody's rating of the original agreement is upgraded above the required ratings. The net present value of the investment and payable is recorded at June 30, 2010 in the amount of \$4,559,704. The expected rate of return on the investment is approximately 7%.

In November 2006, the Foundation entered into a separate agreement with BCCC related to the Succop Conservancy (Conservancy). This agreement is intended to create a partnership for the operation of the Conservancy. The agreement is effective September 1, 2006 through June 30, 2011 and can be terminated by either party any year. As part of the agreement, facility rental is waived for all BCCC events at the Conservancy. BCCC agrees to assume some operating expenses with the understanding that the Foundation will reimburse BCCC for the balance of

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Conservancy related expenses. The amount due to BCCC at June 30, 2010 related to this agreement is \$191,225.

In February of 2010, the Foundation was given land valued at \$113,883 to be used as a parking facility for the BCCC's LindenPointe campus. An interest-free Mortgage Note was attached to the land to be repaid only in the event that the Foundation transfer the property to another entity or use the property for any purpose other than as a parking facility for BCCC.

The Note obligation decreases by ten percent each anniversary date for ten years from the date of the Note such that the entire Note will be forgiven as of February 9, 2020. As of June 30, 2010, a full calendar year has not passed, therefore, the contingent obligation remains at the full Note value of \$113,883 and is reported as deferred revenue on the statement of net assets.

10. LEASES

Capital Leases

In January 2007, BCCC entered into a capital lease agreement for the purchase of computer equipment (Lease #1). The computer equipment is recorded as a capital asset at June 30, 2007 and related depreciation is also recognized. The term of the lease is thirty-six months from January 2007. In January 2010, BCCC entered into a capital lease agreement for the purchase of computer equipment (Lease #2). The computer equipment is recorded as a capital asset at June 30, 2010 and related depreciation is also recognized. The term of the lease is thirty-six months from January 2010.

Capital leases consist of the following:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

	lance at July 1, 2009	Is	ssuance	Payments	Balance at June 30, 2010
Laurel Capital: Lease #1 Lease #2	\$ 17,601	\$	- 99,477	\$ (17,601) (18,126)	\$ - 81,351
	\$ 17,601	\$	99,477	\$ (35,727)	\$ 81,351

The future rental payments under this lease at December 31, 2010 are \$35,483 in 2011, \$35,483 in 2012, and \$10,385 in 2013.

Operating Leases

Additionally, BCCC has entered into various leases for buildings and miscellaneous equipment. It is expected that in the normal course of business, such leases will continue to be required. Net expenditures for rentals under leases for the year ended June 30, 2010 amounted to approximately \$877,146.

In April 2007, BCCC entered into a lease agreement for a site in Lawrence County to begin during 2008. The terms of the lease begin April 1, 2008 and extend for 10 years through and including March 31, 2018. In June of 2008, the terms of the lease were amended. The commencement date changed from April 1, 2008 to July 1, 2008 and the expiration date changed from March 31, 2018 to June 30, 2018.

In February 2010, BCCC entered into a lease agreement for a site in Mercer County with the Foundation. The terms of the lease begin March 1, 2010 and extend for 11 years through February 28, 2021.

Future minimum lease payments on the leases are as follows:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Fiscal Year	 Amount
2011	\$ 517,394
2012	629,394
2013	629,394

	\$ 5,723,152

11. LINE OF CREDIT

Line of credit consists of the following at June 30, 2010:

	alance at fune 30,			Balance at June 30,
	2009	Proceeds	Payments	2010
State Public School Building Authority: Line #1 Line #2	\$ 94,648 181,211	\$ - 720,379	\$ (62,546) (278,010)	\$ 32,102 623,580
	\$ 275,859	\$ 720,379	\$ (340,556)	\$ 655,682

During 2006, BCCC obtained an additional line of credit with the State Public School Building Authority (Line #1) for capital purchases. At June 30, 2010, BCCC had an outstanding balance of \$32,102 relating to this line of credit. The line of credit has a maximum borrowing amount of \$295,000 with an interest rate of 3.94%, and matures in October of 2010.

During 2009, BCCC obtained an additional line of credit with the State Public School Building Authority (Line #2) for capital purchases. At June 30, 2010, BCCC had an outstanding balance of \$623,580 relating to this line of credit. The line of credit has a maximum borrowing amount of \$1,435,000 with an interest rate of 1.61%, and matures in January of 2014.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

12. OTHER POST-EMPLOYMENT BENEFITS

BCCC provides other post-employment benefits to employees under various employment agreements. Those employees who qualify for post-employee benefits are entitled to receive, for a period of time, medical, dental, and vision insurance coverage. BCCC recognizes these expenditures when paid currently. During fiscal year 2009-2010, five eligible retirees received benefits totaling approximately \$21,257. Please refer to the GASB No. 45 discussion in Note 2 of Section B.

13. CONTINGENCIES

BCCC is subject to state and federal audits by grantor agencies. Applicable laws and regulations are complex and subject to interpretation. BCCC is not aware of any pending audit findings involving prior or current years. However, compliance with such laws and regulations can be subject to future reviews and interpretation which could result in disallowed costs.

14. Subsequent Events

BCCC had a tuition rate increase for fiscal year 2011. The approved 2010-2011 tuition rate increased to \$84 per credit hour for Butler County residents from \$79 per credit hour in 2009-2010, \$168 per credit hour for non-sponsored Pennsylvania residents from \$158 per credit hour in 2009-2010, and \$252 per credit hour for out-of-state residents from \$237 per credit hour in 2009-2010.

C. BUTLER COUNTY AIRPORT AUTHORITY

1. ORGANIZATION

The Butler County Airport Authority (Authority) is a municipal authority, which was created and exists under the Municipality Authorities Act of May 2, 1945.

The Authority was created to maintain the Airport facility and grounds for the benefit of Butler County (County) corporations, businesses, and the general public desiring to engage in aeronautical activity. Federal and state grants are applied for and utilized for the purpose of maintaining a reliever airport status and to continue to improve the

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Airport. The Authority enters into land leases for corporate and private hangar construction and aviation business as a representative political entity of the County.

The criteria specified in the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," is used to determine the scope of the Authority's entity for financial reporting purposes. The Authority is a component unit of the County of Butler, Pennsylvania. The County Commissioners ratify the appointment of members to the Authority's Board of Directors (Board) and have a financial burden in that all bonded debt is guaranteed by the County.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Measurement Focus

The Authority utilizes the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Operations are accounted for as an Enterprise Fund that is financed and operated in a manner similar to private business enterprises, where the intent of the Authority is that the costs (expenses, including depreciation where applicable) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with maturities of three months or less when purchased.

Bad Debts

The Authority uses the direct write-off method of accounting for bad debts, which recognizes the expense in the period in which the accounts are determined to be uncollectible. No reserve for doubtful accounts is included in accounts receivable at December 31, 2010 as such amounts are immaterial.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Capital Assets

Land, buildings, and equipment are carried at cost and include expenditures for new facilities and major renewals and betterments. Maintenance, repairs, and minor renewals are charged to expense as incurred. The carrying value of buildings and equipment retired or otherwise disposed of and the accumulated depreciation thereon are eliminated from the asset and related reserve accounts, and the resulting difference, after giving effect to any proceeds from sales, is applied to income accounts.

The Authority provides for depreciation on the straight-line method. Land improvements, buildings, and equipment are depreciated at rates which it is estimated will provide reserves equal to the amounts at which the assets are recorded on the books, less their estimated salvage values when retired from service in the ordinary course of business. The estimated useful lives are as follows:

Land improvements30 yearsBuildings30 yearsRunways and taxiways5-30 yearsVehicles and equipment10 years

Accounting Pronouncements

In applying the provisions of GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds," the Authority applies all GASB pronouncements and all Financial Accounting Standards Board pronouncements, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, which do not conflict with or contradict GASB pronouncements.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

3. DEPOSITS

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Pennsylvania government obligations, insured or collateralized time deposits, and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow pooling of governmental funds for investment purposes. Deposits of the Authority are maintained in bank interest-bearing accounts.

GASB Statement No. 40, "Deposit and Investment Risk Disclosures," requires disclosures related to the following deposit and investment risks: credit risk (including custodial credit risk and concentrations of credit risk), interest rate risk, and foreign currency risk. The following is a description of the Authority's deposit risks:

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a formal deposit policy for custodial credit risk. As of December 31, 2010 \$311,252 of the Authority's bank balance of \$807,966 was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature which require the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits have carrying amounts of \$805,849 as of December 31, 2010, which are reported as cash and cash equivalents in the statement of net assets.

4. ACCOUNTS RECEIVABLE

Accounts receivable at December 31, 2010 consists of government grants receivable of \$370,217 and \$15,459 of accounts receivable for operating revenues.

5. LAND, BUILDINGS, AND EQUIPMENT

A summary of changes in fixed assets is as follows for 2010:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

	December 31, 2009		Increase		Decrease		December 31, 2010	
Capital assets, not being depreciated: Land, not depreciated Construction in progress	\$	1,030,701 404,908	\$	25,920 729,470	\$	- (404,908)	\$	1,056,621 729,470

Total capital assets, net	\$	11,583,471	\$ 1	,033,511	\$	(431,520)	\$	12,185,462

Construction in progress as of December 31, 2010 represents capitalized costs to construct two T-hangars. No depreciation has been charged to construction in progress.

6. DEBT

In October 2010, the Authority obtained a Pennsylvania Infrastructure Bank loan in the amount of \$500,000 to finance the construction of two steel 10-unit nested Thangers. The loan has a stated interest rate of 1.625% and a maturity of 10 years beginning on October 18, 2010. The outstanding balance at December 31, 2010 was \$492,315. Interest paid during 2010 was \$1,349.

The future annual payments required to amortize all debt outstanding as of December 31, 2010 are as follows:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

	Principal		Interest		 Total
2011	\$	46,552	\$	7,654	\$ 54,206

	\$	492,315	\$	40,713	\$ 533,028

7. LEASES AND DEFERRED OPERATING REVENUE

Fixed Base Operation Lease Agreements

On September 9, 2004, the Authority entered into a Fixed Base Operation Lease Agreement (FBO Agreement) with AirQuest Aviation, L.P. (AirQuest). The Authority has leased the premises to AirQuest for a period of 15 years commencing on August 9, 2004 and ending August 9, 2019. On September 17, 2008, the Authority entered into an additional FBO Agreement with AirQuest. The Authority has leased the additional premises to AirQuest for a period of 11 years commencing on August 9, 2008 and ending August 9, 2019. The business is operated in conformance with standards and guidelines promulgated by the Authority and include the following services – aircraft charter, aircraft rental and sales, flight instruction, fuel and oil sales, aircraft and aircraft engine maintenance, and such other commercial activities approved by the Authority.

The FBO Agreements also contains an option for renewal for an additional 14 years. For this time period, the FBO Agreements provide for payments from AirQuest for a land area component, a fuel sale component, and a percentage of business component. The land area component is equal to ten cents per square foot leased, adjusted after each five-year period for changes in the consumer price index. The fuel sale component is equal to eight cents per gallon of fuel sold, or \$20,000 annually, whichever is greater, for the first five years, increasing to nine cents per gallon, or a minimum of \$22,500 annually for the sixth through tenth years; and ten cents per gallon, or a minimum of \$25,000 annually thereafter. The percentage of business component is equal to the greater of \$2,000 or two percent of the Lessee's gross sales.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

Restaurant Lease Agreement

On June 13, 2007, the Authority entered into an agreement with the Runway Restaurant and Lounge, Inc. (Restaurant) for the lease of the second floor of its terminal building. The terms of the lease are for a five-year period commencing on April 1, 2007 and ending March 31, 2012. Annual increases in rent occur every April 1 based upon the Consumer Price Index for the previous calendar year. On February 1, 2009, the Authority amended the lease with the Restaurant to \$1,500 for six months; the lease was then extended for an additional fourteen months at the same terms through September 2010.

On October 1, 2010, the Authority entered into a new agreement with the Runway Restaurant Sports Bar & Grille, LLC (Restaurant) for the lease of the identical space rented to the previous restaurant. The terms of the lease are for a four-year period commencing October 1, 2010 and terminating on September 30, 2014. The annual rent began at \$500 per month, and will increase at a rate of \$500 per month each year.

Future minimum annual rental receivables for such leases are as follows:

	 - ,-
	\$ 924,341
Thereafter	 408,122
2015	88,243
2014	112,871
2013	111,035
2012	105,035
2011	\$ 99,035

In addition, the Authority has entered into lease arrangements with businesses and individuals for hangar space. These leases are generally short-term and on an individual basis not material to the financial statements.

Deferred Operating Revenue

Deferred operating revenue represents the remaining balance of prepaid lease payments made by two businesses in 2005 that prepaid their 10-year lease extensions in one lump sum, as per their lease agreements.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 OR JUNE 30, 2010

8. PENSION PLAN

Under the authority of the Board, a Simplified Employee Pension Plan (Plan) was established. The Board has the authority to amend the Plan as needed. The AIM Family of Funds administers the Plan. Any full-time or part-time employee who works more than 1,040 hours per calendar year is eligible. The percentage rate of contribution by the Authority is determined annually by the Board and was 3% in 2010. Contributions to the Plan during 2010 \$3,059. Employees currently are not eligible to individually contribute to the Plan.

9. RISK MANAGEMENT

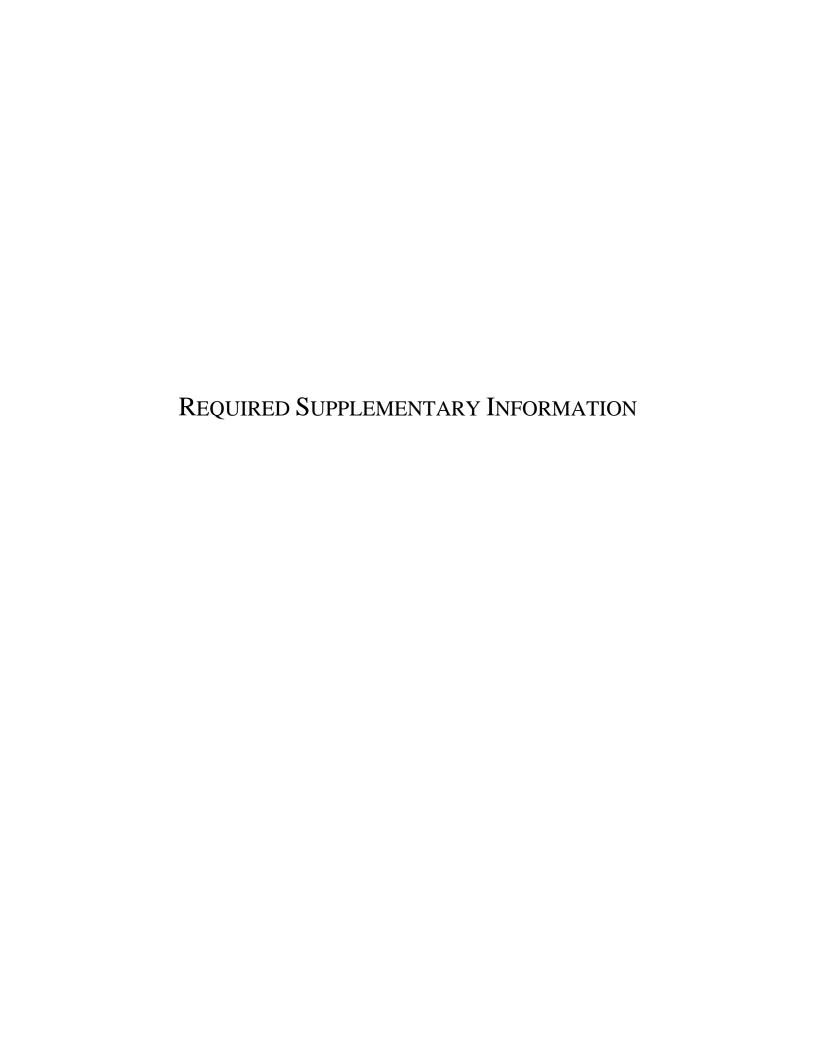

The Authority is exposed to various risks of losses related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance for all types of risks of loss, including workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any past three years.

10. CONTINGENT LIABILITIES

The Authority is subject to state and federal audits by grantor agencies. These laws and regulations are complex and subject to interpretation. The Authority is not aware of any pending audit involving prior or current years; however compliance with such laws and regulations can be subject to future reviews and interpretation which could result in disallowed costs.

11. Subsequent Event

In January 2011, the Authority received a grant from the Pennsylvania Department of Transportation Bureau of Aviation to purchase land and building in the amount of \$140,000. The Authority plans to demolish the building, as the property is in the runway protection zone.

OTHER GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Following are the Special Revenue Funds used by the County:

The **Human Service Special Revenue Funds** are used to account for the proceeds of revenue received from various federal, state, and county sources. These funds, which are restricted for the provision of specified social services to eligible recipients, include:

- Area Agency on Aging Program
- Homeless Assistance Program
- Medical Assistance Transportation Grant
- State Food Program
- Tobacco Fund

- Community Services Block Grant
- Human Development Block Grant
- Senior Aide Program
- Welfare to Work Transportation Grant
- Community Services Block Grant (ARRA)
- Project Hope Program
- Council on Drug and Alcohol
- Independent Living Grant
- Shared Ride Transportation Funds

The **Tax Claim Fund** is used to account for the operations of the Tax Claim Bureau. Amounts collected on behalf of other governments have been reported net of remittances.

The **Operating Reserve Fund** accumulates appropriations from the General Fund and is used to minimize future revenue shortfalls and deficits, to provide greater continuity and predictability in the funding of vital government services, to minimize the need to increase taxes to balance the budget in times of fiscal distress, to provide the capacity to undertake long-range financial planning and to develop fiscal resources to meet long-term needs.

The **Hotel Tax Fund** accounts for the monies collected from the County's 3% hotel/motel tax.

The **Liquid Fuels Tax Fund** and the **Act 44 Liquid Fuels Fund** account for state aid revenues used for building and improving roads and bridges.

The **Path Transitions Project Fund** accounts for federal funds used to provide services to homeless individuals with mental health and drug and alcohol issues.

The **Domestic Relations Operating Fund** is used to account for expenditures and revenue related to the operation of the County's child support enforcement program, which is funded by federal, state, and county funds.

The **Conservation District Fund** accounts for state grants and aid and other contributions and donations to be used for conservation and development of the County's natural resources.

The Agricultural Conservation Easements Fund accounts for County funds to be used to maintain farmland in the County.

The **Dirt and Gravel Roads Fund** accounts for state funds from the Conservation Commission to fund safe, efficient, and environmentally sound maintenance of sections of dirt and gravel roads which have been identified as sources of sediment and dust pollution.

The Grant Fund is used to account for conservation grants that are not to be commingled with other conservation grants.

The Landfill Closure Fund accounts for monies received via Act 68 due to landfill closures.

HAZMAT Emergency Response Fund accounts for monies received from companies who have hazardous waste removed from their premises. These funds are to be used in the event of a hazardous waste accident.

Waste Management Fund accounts for monies received from recycling grants, landfill host county fees, and county solid waste management administrative fees. These funds are to be used for recycling and solid waste compliance programs.

The County Records Improvement Fund and Recorder of Deeds Records Improvement Fund are used to account for a \$2 recording fee surcharge that is allocated evenly between the two funds. The money is to be expended in accordance with a comprehensive records management plan based on the goal of standardizing and equalizing the capabilities of all County offices consistent with their need to receive, manage, and provide information to the public as efficiently as possible.

The **Central Booking Fund** is used to account for fees collected from individuals when obtaining electronic photos and fingerprints. The fee is collected to offset the costs of equipment, supplies and wages incurred in order to obtain the photos and fingerprints.

The **Juvenile Court Restitution Fund** is used to account for fees collected from juveniles on probation. Juveniles are able to obtain money from this fund based upon hours worked in community service projects. For every hour a juvenile probationer works, a certain sum is then released from the fund for application to the restitution owed.

The Clerk of Courts Automation Fee Fund, Prothonotary Automation Fee Fund, and Register of Wills/Orphan Court Automation Fee Fund are used to account for fee surcharges collected by the respective departments, which will be used solely for the purpose of automation and continued automation updates for the respective departments.

The **General Fund Grant Fund** is used to account for grants that had previously been reported in the general fund and that are not associated with any other specific fund in order to more closely monitor the funds and the need for contributions from the General Fund.

Capital Projects Funds

The following Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds:

The Capital Reserve Fund accounts for financial resources to acquire or construct assets of a permanent nature.

The **HOME Grant Fund** accounts for the revenue and expenditures appropriated from the National Affordable Housing Act of 1990 for the purpose of housing rehabilitation.

The **Communities Development Block Grant Fund** accounts for the revenue and expenditures appropriated from the Housing and Community Act of 1974 for the purpose of improving water systems, sanitary sewer systems, storm sewers, housing rehabilitation, public/community facilities, streets and roads, and the removal of architectural barriers.

The **Emergency Shelter Reno Grant Fund** accounts for the revenue and expenditures appropriated by the Stewart B. McKinley Homeless Assistance Act of 1987 for the purpose of the renovation of a shelter for homeless teenagers.

The **Affordable Housing Program Fund** accounts for the revenue and expenditures authorized by Act 137 of 1992 by the General Assembly of the Commonwealth of PA for the purpose of funding affordable housing efforts in the County, which increases the availability of quality housing, either sales or rentals, to any County resident whose annual income is less than the median income of the County.

The **Shared Ride Capital Grant and 16-B Capital Grant** accounts for grant revenue and expenditures designated for the purpose of adding or upgrading transportation equipment.

The **Recreation Fund** accounts for state and local grant revenue and expenditures designated for the purpose of adding and upgrading park and recreation facilities.

The Homeless Prevention and Rapid Re-Housing Program Grant (HPRP Grant) Fund accounts for federal grant revenue and expenditures designated for the purpose of providing short-term and medium-term rental assistance, housing relocation and stabilization services, mediation or outreach to property owners, credit repair, security or utility deposits, utility payments, rental assistance, moving cost assistance, case management, or other appropriate activities for homelessness prevention and rapid rehousing of eligible persons who have become homeless.

The HAVA Grant Fund accounts for intergovernmental revenue and expenditures appropriated by the Help America Vote Act.

Debt Service Fund

The following Debt Service Fund is used to account for the accumulation of funds to pay debt service in future years:

The **Sinking Fund** is used to account for the accumulation of resources for, and payment of, debt service payments.

AGENCY FUNDS

Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds are used to account for cash collected by elected row officers (Sheriff, Treasurer's Office, Register of Wills, Prothonotary, District Justice Courts, Clerk of Courts, and Recorder of Deeds) and other County offices that are subsequently disbursed to the County, other governments, or individuals for whom it was collected.

STATISTICAL SECTION

This part of the County of Butler's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
<u>Financial Trends</u>	
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	VI - 1
Revenue Capacity	
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	VI - 7
Debt Capacity	
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	VI - 16
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	VI - 22
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	VI - 26
Miscellaneous Statistics	
These schedules contain a list of vendors receiving over \$250,000, miscellaneous geographic and historical information, historical population and county maps.	VI - 30

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

NOTES:

- (1) Prior to 2009, assessed values were computed at 75% of the estimated 1969 actual value. Effective 1/1/2009, assessed values are now 100% of the 1969 actual value.
- (2) Does not include Exempt and Utility assessments.
- (3) Effective 1/1/2009 the assessed property value was changed to 100% so the Total Taxable Assessed Value is now equal to the 1969 Estimated Actual Value.
- (4) Current year estimated actual value is calculated as the total taxable assessed value multiplied by the current year common level ratio which is 7.3. The common level ratio is set annually on July 1st of each year by the Commonwealth of Pennsylvania.
- (5) Direct tax rates are expressed in millage. The tax rate is applied per every \$1000 of the 1969 estimated actual values. The millage rate did not include any portion for debt service prior to 2001. The millage rate includes 2 mills for debt service for the years 2002, 2003, and 2004, and 5 mills for debt service for the years 2005, 2006, 2007 and 2008. For 2009 and 2010 the millage rate includes 3.94 mills for debt service.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

December 31, 2010 (Unaudited) (Continued)

Governmental Unit (1)	 Debt Outstanding	(1) Estimated Percentage Applicable	Estimated Share Of Direct and Overlapping Debt		
Airport and College Districts: (4) Butler County Airport Authority Butler County Community College	\$ 492,315.00 33,010,000	100.00% 100.00%	\$	492,315 33,010,000	
Total Airport and College Districts	\$ 33,502,315		\$	33,502,315	
Subtotal, Overlapping Debt			\$	473,226,752	
Total Direct Debt				53,240,000	
Total Direct and Overlapping Debt			\$	526,466,752	

NOTES:

- (1) Overlapping governments are those that coincide with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Butler County. This process recognizes that, when considering the County's ability to repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. Percentages were estimated by determining the portion of another governmental unit's population that is within the County's boundaries and dividing it by the County's total population. (Allegheny Township is located within Allegheny-Clarion School District of Clarion County. Buffalo Township is located within Freeport Area School District of Armstrong County. Residents of Armstrong and Clarion Counties living in the Karns City S.D. were deducted from the total of that school district's population).
- (2) School District Debt is as of June 30, 2010.
- (3) Municipal Debt is as of December 31, 2008; 2009 and 2010 amounts were unavailable.
- (4) Butler County Airport Authority and Butler County Community College are component units of Butler County. Butler County Community College debt is as of June 30, 2010.

SOURCES:

- (1) Local Government Unit Debt Act of 1972 as amended.
- (2) Annual Reports of the Butler County Controller.

NOTES:

Borrowing Base Revenue includes total revenue from all sources less debt proceeds, transfers-in, and grants for specific projects, and interest on Sinking Fund.

Under the finance laws of the Commonwealth of Pennsylvania, with the exception of Philadelphia, the County's outstanding non-electoral debt should not exceed 300% of the three-year average of General, Special Revenue, and Permanent Funds' revenue. The outstanding non-electoral and lease rental debt should not exceed 400% of the three-year average of General, Special Revenue, and Permanent Funds' revenue.

Butler County has no lease rental debt.

^{*} Information is unavailable for the years 2001 through 2002. The County adopted the provisions of GASB's Statement Number 34, "Basic financial Statements-and Management Discussion and Analysis-For State and Local Governments" effective for calendar year 2003.

Notes:

- (1) Execution cases include mortgage foreclosures, sale of property for foreclosures, garnishee attachments, sale of households goods, foreign writs, and attachment of wages.
- (2) Totals represent new cases filed in the years referenced.
- (5) Prison average daily population includes inmates housed at out-of-county jails.

Net of contributions deducted from the Employees' Retirement Fund Unreserved Fund Balance.

The \$2.4 million increase in 2005 is the result of Act 43 of 2003 which amended the County Pension Law on December 16, 2003. Effective January 2, 2004, the Butler County Retirement Board authorized the County to increase the pension fund class basis to 1/40th, retroactive to an employee's date of hire.

The Butler County Retirement Board authorized the County to reduce the pension fund class basis to 1/60th for all new hires effective April 1, 2009.

Subject to actuarial adjustment

Excludes County share of member buy-backs generally for leave-of-absence without pay or military service.

Buybacks for leave-of-absence without pay must be approved by the Butler County Retirement Board.

NOTE:

Amounts include all state and federal funds administered by the County. The majority of the above payments were made through contractual arrangements for providing various human services. Audited financial statements, when available, are filed with the controller for review.

MISCELLANEOUS STATISTICS

December 31, 2010

Date Founded:

March 12, 1800

Form of Government:

Elected Board of Commissioners

3 Members

Local Government Units:

1 City

23 Boroughs

33 Townships

Elections:

Number of Registered Voters, November 2010 - 118,198

Number of Votes Cast, November 2010 - 66,102

Percentage of registered voters voting:

November 2010 - 55.92%

Population:

183,862 (The Pennsylvania State Data Center)

Area:

(Center For Workforce Information)

Land Area: 788.6 Square Miles
Persons per Square Mile: 232.0
Percent Urban: 53.3%
Percent Rural: 46.7%

Population Change:

1960-2010 (2010 Census)

1900-2010	(2010 Cerisus)
1960	114,639
1970	127,941
1980	147,912
1990	152,013
1995	165,557
2000	174,083
2010	183,862

MISCELLANEOUS STATISTICS (Continued)

December 31, 2010

Households:	Family	46,839
	Non-Family	18,897
	Total (2000 Census)	65,736

Housing: Median Value of Homes Sold - \$114,100 (2000 Census)
Housing Units - 78,421 (2009 Census Bureau estimate)

Income: Median Household - \$57,398 (2008 Census Bureau est.)
Average Wage per Job - \$39,082

(2009 Bureau of Economic Analysis)

Greatest Snowfall January 1977

32 Inches

Time Zone:

Eastern Time Zone

Spring - Daylight Savings Time
Fall - Eastern Standard Time

Average Annual Rain/Snow 40 Inches
Average Summer Temperature 70 Degrees F
Average Winter Temperature 25 Degrees F
Lowest Temperature Jan 1963 -22 Degrees F
Highest Temperature July 1988 102 Degrees F
Greatest Rainfall June 1956 11 Inches

MISCELLANEOUS STATISTICS (Continued)

December 31, 2010

Transportation:

PA Turnpike (I-76) Highways:

> Interstate Routes 79, 80 U. S. Routes 19, 422

Miles of Roads: 699

- State - Turnpike 1,542 - Local

4

Points of Interest:

Old Stone House (1822)

This historic site operated as a stage coach stop for 50 years in the 1800's. The reconstructed house is maintained by Slippery Rock University. Featured events include craft fairs, public tours, and 18th and 19th century military encampments and reenactments.

Lowrie-Shaw House (1823)

The house is located directly behind the County Courthouse in downtown Butler. It was built as a summer residence for Walter Lowrie, Butler's only U.S. Senator.

Little Red Schoolhouse (1838)

Butler's first public school was a "one-room" red brick classroom experience until 1874. It later served as Butler's first public library and also as the Red Cross Center during World War II.

Harmony Historic District

This landmark site spans eight blocks in old-town Harmony and includes the Harmony Society cemetery in Jackson Township. It is the site of the shot fired at George Washington that marked the beginning of the French and Indian War in 1753.

Cooper Cabin (1801)

The homestead was built by the Cooper family and enlarged after the Civil War. Family ascendants remained in the cabin until 1963. Living history demonstrations are now offered May through September.

Evans City Historical Society Museum

The museum features artifacts and memorabilia from the oil boom and railroad era.

Points of Interest: (continued)

Butler County Heritage Center

The center offers a 4500 square foot display of items made in Butler County. Exhibits include the Bantam jeep, hand-crafted pieces from early homesteads, and a museum gift shop.

Maridon Museum

The most recent addition to the rich cultural background of Butler County opened its doors in 2004. The Maridon Museum includes four galleries. One gallery displays Asian art with jade and ivory sculptures. Two other galleries present rare Asian objects including the scrolls of ancient scholars. The Meissen gallery displays a porcelain collection produced near Dresden in 1713.

Global Contributions:

Invention of steel cable
Design of the Brooklyn Bridge
Development & production of the military Bantam jeep

Agriculture:

Farm Product Sales - \$38,664,000 (2007) Total Number of Farms - 1,116 (2007)

Personal Income:

Per Capita Personal Income was \$40,692 in 2009. It ranked 7th in the state, and was 101% of Pennsylvania's average of \$40,175. The national average was \$39,635. This represents a 0.3% decrease in the county from 2008. (Bureau of Economic Analysis 2009)

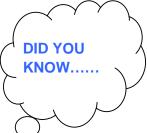

Personal Income includes net earnings of persons employed; dividends, interest, and rent; and transfer payments. The civilian labor force from December 2010 was 98,600 with 91,500 employed and 7,100 unemployed. (paworkstats.com)

Butler is one of **67 counties in Pennsylvania.** When the county was formed in 1800, the population was 3,916 spread over the four townships of Connoquenessing, Buffalo, Middlesex, and Slippery Rock.

Butler County is the 19th largest populated county in Pennsylvania. It's population grew 20.95% from 152,013 in 1990 to 183,862 in 2010.

Cranberry Township in Butler County grew 89.74% from a population of 14,809 in 1990 to 28,098 in 2010.

The **Borough of Seven Fields** had the second fastest percentage growth in the state. It grew 256% from a population of 558 in 1990 to 1,986 in 2003.

Butler County's first **Commissioners** in 1803 were Matthew White, James Bovard, and Jacob Mechling.

The first Butler County **Courthouse** was built in 1803. The second one was constructed in 1853, remodeled in 1877, and destroyed by fire in 1883. The current courthouse was erected in 1885-86 with improvements in 1907.

Butler's own Pullman Park opened in 1934 and is the site of **baseball** history. Whitey Ford, Joe Di Maggio, and Lou Gehrig were major league greats who played there.

MISCELLANEOUS STATISTICS (Continued)

Butler County was named after Major General Richard Butler.

He was a native of Dublin, Ireland, born on April 1, 1743, and immigrated to the United States in 1748. He and his four brothers fought with George Washington at Valley Forge. After the Revolution, Richard Butler settled in Carlisle and helped negotiate treaties with the Indians. He received land grants from the state and federal government for his military service, and was active in the formation of Allegheny County. Butler County was formed when its 502,400 acres severed from Allegheny County. Butler was elected to the state's General Assembly to represent Allegheny and Westmoreland counties. In 1788 he was named a major general, led an expedition into Ohio to aid with an Indian uprising, and was killed in battle.
